

MARCH WEATHER RHEUMATIC WEATHER

Victims Can Cure Themselves With Dr. Williams' Pink Pills

With the coming of March people who are afflicted with rheumatism begin to have unpleasant reminders of their trouble. The weather is changeable—balmy and springlike one day, raw, cold and piercing the next. It is such sudden changes of weather that sets the pangs and tortures of rheumatism, lumbago and sciatica going. But it must be borne in mind that although weather conditions start the pains, the trouble is deeply rooted in the blood and can only be cured through the blood. All the lotions and liniments in the world can't cure rheumatism. Rubbing may seem to ease the pain while you are rubbing, but there its value ends. Only through the blood can you cure rheumatism. That's why Dr. Williams' Pink Pills have so many thousands of cures of this trouble to their credit. The new, rich blood which they actually make drives out the poisonous acid, and rheumatism is vanquished. Here is an example: Mr. W. C. Douglas, Webbwood, Ont., says: "I was attacked with inflammatory rheumatism, which spread through my entire system. For two months I was not able to go about, and seemed to be hovering between life and death. My joints were swollen and my legs and arms twisted, until I expected that they would never return to their normal shape. The doctor seemed to help me, but not to cure me, and I would be better one day and worse the next. At this time a friend strongly urged me to try Dr. Williams' Pink Pills, and I got a dozen boxes. Soon after beginning the pills there was a change for the better, and I continued using the pills until I was quite well again. The swelling disappeared from the joints. My limbs returned to their natural shape and I feel as if Dr. Williams' Pink Pills have saved me from being a rheumatic cripple. I hope my experience may prove a blessing to some other sufferer."

If you suffer from rheumatism, or any other disease of the blood, begin to cure yourself to-day with Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

RASH SO BAD BABY CAME NEAR DYING

Head Broke Out. Spread to Arms, Legs and Entire Body. Itched So He Would Scratch Until Blood Ran. One Box of Cuticura Ointment and Nearly One Cake of Cuticura Soap Cured Him. Has Had No Return.

"When my boy was about three months old, his head broke out with a rash which was very itchy and ran a watery fluid. We tried everything we could but he got worse all the time, till it spread to his arms, legs and then to his entire body. He got so bad that he came near dying. The rash would itch so that he would scratch till the blood ran, and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to prevent him tearing his skin. He was so weak and run down that he took fainting spells as if he were dying. He was almost a skeleton and his little hands were thin like claws."

"He was bad about eight months when we tried Cuticura Remedies. I had not laid him down in his cradle in the daytime for a long while. I washed him with Cuticura Soap and put on one application of Cuticura Ointment and he was so soothed that he could sleep. You don't know how glad I was he felt better. It took one box of Cuticura Ointment and pretty near one cake of Cuticura Soap to cure him. I think our boy would have died but for the Cuticura Remedies and I shall always remain a firm friend of them. He was cured more than twenty years ago, and there has been no return of the trouble. I shall be glad to have you publish this true statement of his cure." (Signed) Mrs. M. C. Maitland, Jasper, Ontario, May 27, 1910.

For more than a generation, mothers have found a speedy, agreeable and economical treatment for their skin-tormented little ones in Cuticura Soap and Ointment. Although they are sold by druggists and dealers everywhere, a liberal sample of each may be obtained free from the Potter Drug & Chem. Corp., sole props., 37 Columbus Ave., Boston, U.S.A.

GRAINS OF GOLD.

Purposes, like eggs, unless they be hatched into action will run into rottenness.

SHOUT THE NEWS FROM THE HOUSETOPS

THAT DODD'S KIDNEY PILLS CURE SUFFERING WOMEN.

Mrs. Savard Tells How They Cured Her Kidney Disease From Which She had been a Sufferer for Many Years.

St. Simeon, Doriel, Charlevoix Co., Quebec, March 11 (Special).—Only those who have suffered know the blessings of perfect health. The joy that it brings into their lives makes them want to shout the good news from the housetops. They want other sufferers to know the road to health. Such is the case with Mrs. Alfred Savard of this place.

"I have been a sufferer for many years with Kidney Disease," Mrs. Savard says, "Reading an advertisement telling what Dodd's Kidney Pills had done for a similar sufferer I decided to give them a trial. Six boxes cured me completely."

What Dodd's Kidney Pills have done for Mrs. Savard they have done for thousands of other sufferers in Canada. The daily papers tell of cures made by them every day. They always cure Kidney Disease and Kidney Disease is the cause of nine-tenths of the troubles from which women suffer.

QUEER QUITO.

Strange Capital of the Republic of Ecuador.

Travelers in South America see many strange places, but the queerest of all is probably Quito, the capital of the Republic of Ecuador. The first thing which strikes a visitor to that city is that there are no chimneys to the houses.

Charcoal is all that is burned there, and consequently no smoke arises. Another peculiarity is that while the streets are well paved you may pass days in the city and never see a wheeled vehicle.

There are some carriages in Quito, but they are rarely used, and when one of them comes rattling along, everybody turns out to look at it, as at some curiosity.

A third peculiarity is that while the bulk of the population dresses in ponchos (a kind of cloak or loose garment), and short linen trousers, a considerable number of people—white men—are to be seen walking about and wearing frock coats and tall hats. These men, the visitor is generally told, are enlightened and cultivated men, natives of Spanish origin, who claim that they form the nation of Ecuadorians. Indians, of course, do not count.

Every white man in Quito who can possibly manage it wears this sort of coat and hat to emphasize his importance and highly civilized condition.

This dress justifies him in calling himself doctor, and others in so styling him; and he also thinks that it gives him a claim to come into your apartments without being invited and try to borrow five cents from you.

An Oil That is Prized Everywhere.—Dr. Thomas' Electric Oil was put upon the market without any flourish over thirty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this hemisphere. There is nothing equal to it.

ARSENIC AS A TONIC.

Austrian Peasants Make a Practice of Eating It.

The many sensational instances of arsenical poisoning has imbued most people with a wholesome dread of the mineral. These will doubtless learn with astonishment that in some parts of Lower Austria, in Styria, and especially in the hilly country towards Hungary, there prevails among the peasants an extraordinary custom of eating arsenic. And they are remarkable for clear and blooming complexions, for full, rounded figures, and for healthy appearance. By many arsenic is swallowed daily throughout a long life, and the custom is even handed down from father to son.

But it is not used solely for improving personal appearance; it is said to improve the breathing, and gives longness of wind, so that steep and continuous heights may be climbed without difficulty and exhaustion of breath. No symptoms of illness or of chronic poisoning are observable in any of the arsenic-eaters when the dose is carefully adapted to the constitution and habit of body of the person using it. But if from want of material, or any other cause, the arsenic be left off for a time, symptoms of disease occur which resemble those of slight arsenical poisoning.

A FIREMAN'S PERIL.

How Zam-Buk Delivered Him.

At 215 Fraser Ave., Edmonton, Alta., lives W. P. Mahy, a former member of the local fire brigade, who has wonderful cause to be thankful for the curative powers of Zam-Buk. He says: "A serious skin disease broke out on my face, and spread until I was in a terrible state. The spots and little ulcers were frightfully irritating, and yet when scratched or rubbed they bled and smarted. Shaving caused me agony, and sometimes I would have to go two weeks without a shave. I tried home-made remedies, herb salves, and various other preparations, but the sores got no better. When Zam-Buk was mentioned I had little faith that it would be able to do me any good. I gave it a fair trial, however, and the first box made such a wonderful change for the better that it gave me encouragement to continue. I did so, and to cut a long story short, Zam-Buk, in the end, quite cured me."

Zam-Buk cures eczema, blood poison, ulcers, chronic sores, piles, ringworm, cold sores, cuts, burns and skin injuries. All druggists and stores at 50c box, or post free from Zam-Buk Co., Toronto, for price. Refuse substitutes.

A NEW PLAN.

Miss Green—How do you manage to keep a cook so long? Do you treat her as one of the family?

Mrs. Brown—I should say not! We treat her as a guest.

The tactful, considerate person often has more power over the lives of his fellows than the one of greater native ability.

"A Grand Medicine" is the economical one—passed on Bickie's Anti-Consumptive Syrup, and when the results from its use are considered, as borne out by many persons who have employed it in stopping coughs and eradicating colds, it is more than grand. Kept in the house it is always at hand and it has no equal as a ready remedy. If you have not tried it, do so at once.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Cure.

WHEN THEY SHOOT SEALS.
Sealskin is a fur that is never out of fashion, its high price assuring that it shall be always popular. Seals are caught in a variety of ways, but they are very shy creatures, and the greatest caution must be exercised in approaching them. Even when they have been struck by harpoon or rifle-bullet the blow must be fatal and death instantaneous, or the animal will drop in its hole in the ice and be seen no more. Indeed, the fact that a seal seldom moves far from its hole adds considerably to the hunter's difficulties. The plan usually adopted by Eskimo hunters is to build up a kind of tent-sledge. The sides and front are masked with bearskin, the top with the pelt of a hare. The native hides within this novel tent, and inch by inch propels himself over the ice till he is near his quarry. The rifle with which he slays his seal is brought into use through a loophole in the sledge covering.
