WILL SEARCH FOR "MISSING LINK"

New York, Oct. 30—Organized search for the well-advertised but undiscovered "missing link,"—the remains of the near man that scientists since the day of Darwin have longed to examine—is to be carried on in Asia for a five-year period, beginning next February.

An expedition, financed by a \$250,000 fund, will penetrate remote regions, and even if it fails to uncover remnants of man's rude prehistoric forebear, it is planned to bring back to New York "the greatest natural history collection the world has ever seen."

The American Museum of Natural History, which is sponsoring the explorations, announces that its associates are the American Asiatic Society and the Asia Magazine. These three will finance the expedition, with the help of private contributions by Mrs. Willard Straight, J. P. Morgan, George F. Baker, W. A. Harriman, Childs Frick and Mrs. and Mrs. Charles L. Bernheimer.

Huntsmen and cowboys, as well as ornithologists and scientists will be included in the big party, for it is planned to trail some of the wildest wild animals in the world in the Gobi desert and bring them back to New York alive.

"Antelopes that can run sixty miles an hour," wild horses with less speed but more control in their kicking apparatus, and wild camels, wild asses and long-haired tigers, "can be run down in motor cars, lassoed by Mongol cowboys, and some of the specimens brought back alive to the New York Zoological Parks," said the statement announcing the expedition.

"On the Tibetan steppes are enormous yak, snow leopards, giant an-das and beautiful golden monkeys, with blue upturned noses," the statement continued. "In China is the taklin, a creature with a veritable 'golden fleece,' a strange ox-like animal that roams the highest mountain valleys and actually represents an intermediate stage between the antelope and the goat."

It is the hope of finding the bones of a prehistoric ancestor of man, however, that is held highest by Roy Chapman Andrews, associate curator of mammals in the American Museum of Natural History, who will be in charge of the expedition, and his associates. The party will have its headquarters in Peking.

In 1891 a Dutch army surgeon, while excavating for fossils in central Java, discovered part of a skull two molar teeth and a thigh bone, and thereby unearthed one of the most perplexing conundrums in the study of human ancestry," said the statement.

"Were the remains those of an extremely early type of prehuman manlike animal? If so, this ape-man must have lived approximately five hundred thousand years ago."

"With the exception of the Java specimens, all fossil human fragments have been discovered in Continental Europe or England. Nevertheless the leading scientists of the day believe that Asia was the early home of the human race, and that whatever light may be thrown upon the origin of man will come from the great central Asian plateau."

Does Anyone ever get "too much" Sleep

THE energy you can afford to spend today is just what you stored up last night in sleep—and no more.

What you need for deep, sound, restful sleep is a quiet, steady bed—a bed, spring, mattress and pillow that invite every nerve and muscle to rest in clean, sun-lit factories. Used in thousands of fastidious Canadian homes.

THE Simmons Metal Bed is noiseless. Just as the sleep-inducing Spring is a Simmons "Waldorf," of specially tempered spring coils. Fine Springs that fit the contour of the body and support the spine in a straight line, insuring perfect circulation and restoring the energy used up in the fatigue of the day.

Simmons Felt Mattresses are the result of twenty-five years' study of equipment for sound, natural sleep. Made of pure, new cotton in clean, sun-lit factories. Used in thousands of fastidious Canadian homes.

And Simmons Pillows, which rest the head and neck exactly as they need to be rested.

Simmons Limited is specializing in Twin size sleepers does not mean other beds.

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.

NANAIMO LOST BOTH FOOTBALL GAMES

(Continued from Page One)

and the latter was carried off the field for the balance of the first half.

The second half started with a rush by the Cumberland forward line and for ten minutes they put up the best combination work of the game, the local defence saving time after time. Then the visitors' attacks weakened and the local boys took up the offensive again, but try as they would they could not get the ball into the net. After one of these attacks the Cumberland forwards secured and Harrison, taking the ball down the field, centered to James, who succeeded in landing the ball in the net for the first and only goal of the game. After this Cumberland spent most of their time in kicking the ball out of play and killing as much time as possible. This may be considered good football tactics by some players but to the average football fan it has a tinge of yellow never seen in true sport. The players should not lose sight of the fact that it is the patronage of the fans that makes the game possible, and they should be treated to football and not a display of murdering time.

Of the United players it would be hard to single out any individual for praise, as they all gave of their best, they put up a splendid fight, and it was more the chances of the game than their opponents superiority that beat them. Jackson, the new pivot man of the forward line, made a very favorable impression on the spectators, and when used to his team-mates will take a great deal of watching.

The standing of the League is now as follows:

	W.	L.	D.	Pts.
Cumberland	6	1	1	13
S. Wellington	4	0	4	12
Nanaimo City	4	4	0	8
Granby	2	3	3	7
Nanaimo United	1	5	1	3
Ladysmith	1	5	1	3

Next Sunday's Games
Ladysmith at Nanaimo City.
Cumberland at Granby.
Nanaimo United at South Wellington.

CERTIFICATE OF IMPROVEMENTS
Notice of Application
Hammer Bird Mineral Claim, and
May Flower Mineral Claim,
Situate in the Nanaimo Mining Division of Nanaimo District. Where located, the Humming Bird on Goat Island, Powell Lake, and the May Flower Mineral Claim, about three miles west from Powell Lake.
Lawful owner, David George Kennedy. Number of the Holder's Free Miner's Certificate, 1872.C.
Take Notice that I, David George Kennedy, Free Miner's Certificate No. 1872.C. intend, at the end of sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claims.
And further take notice that action under Section 85 of the "Mineral Act" must be commenced before the issuance of such Certificate of Improvements.
Dated this 15th day of October 1920.
DAVID GEORGE KENNEDY.
Minard's Limestone Quarry, Colde, B.C.
