## WRITER REPLIES TO LETTER SIGNED "NEWCASTLE"

Thinks There is Good Material For Mayoralty Outside of Mr. Morrison.

### SPEAKS OF OTHERS.

Alderman Armstrong's Work Is Very Favorably Commented On.

To the Editor of the Advocate:  
I have taken considerable interest in civic affairs since the incorporation of this town and with your permission I would like to make a few remarks in reply to a letter signed "Newcastle" which appeared in the last issue of your paper.

The writer of the letter in question evidently wishes to convey the impression that Mr. Donald Morrison is about the only man in the town of Newcastle who is qualified to be Mayor.

Now Mr. Morrison may be, and no doubt is, a very capable man, but I would be long sorry to think or believe that there is not another man in the town capable of filling the Mayor's chair. Indeed I am of the opinion that there are several citizens of this town who could shed a lustre about the Mayor's chair which would not be surpassed by Mr. Morrison. I believe that the composition of the present Town Council is one representative of the best class of citizens of Newcastle and that the affairs of the town are being advanced in a business like way. We have at the head of the Board of Works, Ald. Armstrong. No man is doing more to advance the interests of this town than he. Mr. Armstrong is an active and progressive worker and merits every praise and encouragement in his work which he has undertaken. Ben Johnson once said that the man who is prejudiced in a matter of public concern is an enemy to his country. I for one am honest in my views. If this question when I declare that Mr. Armstrong should be our next Mayor. I am sure this town disapproved he and any of every upstart who happens along with an axe to grind and I stand by the small voice of reason. I have seen in our citizens honest, broad minded views and the work of our best citizens will be recognized and appreciated.

A though I believe the Advocate is doing a good work and expressing the right sentiments I could like to see it a little more pronounced on some subject notably among which the one I have referred to.

Thanking you for the space allotted me,  
FAIR PLAY.

## LUMBER MARKET IS NOT LIKELY TO IMPROVE

Hon. Allan Ritchie Back From England Says Times are Very Dull There.

### INDUSTRIAL OUTLOOK BAD

Mr. Ritchie Tells About Complicated Political Matters Over There.

Hon. Allan Ritchie, who arrived home on Monday from a trip to the British lumber market, in discussing the situation yesterday, Mr. Ritchie observed to a reporter for the Advocate that the lumber market showed no signs of improvement. It was very dull on the other side of the pond and it was not likely to remain so for some time though there had been some slight improvement in both the cotton and shipbuilding industries. There was no hope of a recovery in the lumber trade.

Mr. Ritchie said that the political situation in Great Britain was very complicated and that the outlook for the future was very uncertain. He said that the situation in Russia was also very complicated and that the outlook for the future was very uncertain.

## DWELLING BURNED

Jas. Donovan's Residence Badly Gutted on Sunday Last

The two story frame dwelling on Kings road owned and occupied by James Donovan was badly gutted by fire Sunday afternoon. A blaze that had made considerable headway was discovered in an upper room about two o'clock. An alarm was rung in and the department quickly responded with two reels of hose. All the furniture was saved but the house was severely damaged. Chief Ingram and his men deserve every praise for the manner in which they handled the fire. The property was uninsured.
