ANNUAL EXCURSION OF EMPLOYEES OF AIR LINE DIVISION.

The first annual picnic of the G. W. Air Line employees was held on Saturday last, at Simcoe, and was numerously attended about 1100 persons being present. The picnic was held in Campfield Grove, a beautiful spot well suited for the purpose, and amongst the company present we noticed, Mr. and Mrs. J. E. Dawson, Divisional Superintendent, Mr. Jennings, Resident Engineer, Mr. Nairn, Aymler, Mr. and Mrs. Chesley, W. Long, St. Thomas, Mr. McKenna, Treasurer. The profits of the trip were devoted to the reading room.

The excursion was one of the best that ever left St. Thomas, and every one was well pleased with the day's proceedings. The Simcoe Brass Band was in attendance, as well as a Quadrille Band. The prize for the best dancer was awarded to Miss A. Hall of Cayuga. A lady who was also one of the attractions of the day and the first prize was taken by Mrs. Harland, wife of the engineer driver of St. Thomas, and the second by Mrs. Nairn, wife of the station agent at Aymler. A game of base ball between the Young Eries of this town and the Simcoe Club was also played and resulted in the victory of the St. Thomas boys by a majority of 13 runs. Mr. C. E. Dawson and Mr. F. W. Kiffin undertook the management of the business at St. Thomas this day to allow the rest of the employees to enjoy the picnic.

TEMPERANCE PIC-NIC.

Several temperance organizations of the County of Elgin met together on the 26th instant at the Camp Ground, New Sarnia, recently occupied by the Wesleyan body for the purpose of promoting the interests of their common cause. About 500 people were present, who after having enthusiastically invited to a still richer intellectual repast. The chair was ably filled by Mr. Price, Aymler, who said he had been a temperance man for forty-three years, and that he would be glad to have among the fathers of the cause. He was appointed worthy chief of the first Lodge of the O. G. T. ever organized in Aymler. Apart from the exercises God himself had nearest his heart, and he would say to the youth of his day, never touch the sparkling cup of the great destroyer, for many who had fallen "victims of the traffic" he called upon Professor Samuel of London, who said many temperance men in our ranks were like those Christians depicted by the Apostle James, who had faith in abundance but lacked work beyond measure. Hundreds to-day had the most unadvised faith in the principles of temperance but were wretchedly deficient in that zeal without which the cause must fail in the crisis of a conflict. He urged members to be faithful in their attendance at the lodge room, especially when others were holding back. He also recommended juvenile societies in every church, and prayed that our people would be commensurate with our pains. Many difficulties stood in our way, but the movement had in some instances been carried even from the sacred desk, but "if God be for us, who can be against us." The Rev. W. Davis said he wished to stand straight up in the temperance cause. He had a draught of the movement. All great measures required time for their adoption. The temperance reform was one above all others, which demanded perseverance on the part of its patrons. There were many reasons for enlisting in such a cause and perhaps one of the strongest was to be found in Christian expediency standing on that ground he could justly urge its claims. Rev. W. McElroy, Aymler, on coming forward expressed his deep toned sympathy in the moral rectitude of the movement. Notwithstanding the assertions so frequently made respecting the "old fogeyism" of the movement. He still believed that it was only in its infancy, and its subsequent developments would lead to full of promise, and eventually accomplish its glorious work. Moderate drinking he justly condemned in all its forms and in the strongest terms. Respecting the Prohibitory Liquor Law, for which we were contending, he was hopeful that it would soon be placed on the statute books of the land. "The true people said we were not ready for such a law, but asked if God would till man was ready for the reception of the moral law as embodied in the Decalogue. No, it was given as a "Schoolmaster" to educate and bring us up to the line of moral rectitude. So we want to lay the stern traffic of the law upon this nefarious traffic, and blot this terrible curse out of the land. The Rev. Mr. Gifford briefly pointed out the responsibility of the ladies in the matter, and urged them to forbear keeping the company of any young man who would tempt with the temptations, for he thought if such a stand was taken by the fair sex it would soon result in a wonderful reformation. The Rev. J. V. Smith, St. Thomas, supplemented the remarks of the preceding speaker by re-asserting the men of temperance principles, to act cautiously towards those young ladies (for such there are) who are and continue to be the use of wine and spirits, as such companionship would be to say the least, extremely dangerous. Neat little addresses were given by Mr. Doherty and Mr. McMonroe, missionary from India, after which the band played the National Anthem, and the interesting service came to a close.

CLOSE OF THE PROVINCIAL SHOW.—On Thursday 30,000 people visited the Crystal Palace Grounds. The cash receipts were \$18,300 up to Thursday night. One of the attractive features of the show was the airing in the Ring of the prize animals, horses and cattle, forming a magnificent display of stock, and one that was worth travelling miles to see. Another very interesting feature of the show was the display of the chemical fire engine to which it drew together such a mass of spectators that the scene was really grand. The show of plants and flowers was very attractive, being made up principally from garden and greenhouse of the city nurserymen. The display of butter was not large, and no rolls were shown. Only one person exhibited bread—a white and brown loaf—and the judges did not award a prize.

—Rev. Henry Ward Beecher has returned to Brooklyn and will preach in Plymouth Church next Sunday.

The St. Thomas Gas Consumers' Company.

The meeting of the Provisional Directors and others interested in the formation of the above company took place on Thursday evening last at the Opera House, and the Town was well represented by the leading citizens of the place. The Mayor and several members of the corporation being present. D. Drake, Esq., was invited to take the chair. The prospectus having been read by the Secretary pro tem, a few suggestions were made by the gentleman who called forth considerable discussion, in which Messrs. J. A. Kain, G. T. Clark, G. T. Van Norman, J. W. Denison and others took an active part. After two hours sitting resolutions were passed. "That it was now desirable that gas should be introduced into the Town, and that every exertion should be made by the Provisional Committee to secure that end." "That the Provisional Committee be empowered to invite tenders for the laying of pipes and manholes, and for the erection of a gas works, and that the appointment of W. J. Keating, Esq., as Secretary was carried unanimously. After which the meeting passed a vote of thanks to the chairman and the meeting adjourned until a further date for the Committee to make speedy arrangements for carrying out the scheme.

CRICKET MATCHES.

On Friday last a splendid game of cricket was played in the C. S. R. grounds, between the St. Thomas club and one from Simcoe. The play of the St. Thomas club showed a great improvement on their previous form, doubtless owing to their increased practice. A large number of spectators were present including a good proportion of ladies. Rapid batting was the order of the day on the ground in the afternoon, and played a choice programme. The weather was all that could be desired and evening passed off very pleasantly. Below we give the score.
