

# Remarkable Case "Money Madness."

A PEASANT'S DAUGHTER  
WON FRANCE FOR 25  
YEARS.

...to four million pounds!  
...the lady of whom, about  
...years ago, all Paris was talking.  
...Parisienne herself made no  
...of her history or her wealth.  
...she said, the adopted daughter  
...an American millionaire, Mr.  
...Henry Crawford, who, in his  
...years, had been a great invalid,  
...been his favourite companion  
...and, in gratitude, he had  
...his entire fortune of four  
...pounds.

...all so very simple!" she said  
...charming smile and a shrug  
...of her shoulders. "Why make  
...of it?" And to prove her  
...she produced a copy of Mr.  
...Humbert's will, signed by him at Nice,  
...September 6th, 1877, a few  
...years earlier.

Her Claim Disputed.  
...to consider that a young lady so  
...romantic should soon find  
...the object of much flattery.  
...She was invited to the most  
...houses in Paris, and was  
...by high-placed admirers  
...to win her hand and her  
...wealth. And it was not long be-  
...fore that she had given her hand  
...to the handsome, the handsome  
...of France's leading Minis-

...however, Paris was startled  
...that Madame's title to the  
...millions was to be disputed. Two  
...of the dead Millionaire had  
...another will, also made at  
...September 6th, in which the  
...was left to be equally divided  
...between them and Madame's sister,  
...while Madame was left a life  
...of £14,000 only.

A Canine Plot.  
...however, who, as dis-  
...later, were two of Madame's  
...masquerading in this  
...were anxious to have the  
...as they were quite content  
...Madame Humbert should retain  
...of the securities represent-  
...four millions until the matter  
...settled in the law courts.  
...the securities were to be  
...in her safe, which was not  
...except by her own hand.

...unfortunately, the case could not be  
...for some months; and mean-  
...time Madame wanted money to pay  
...her bills. But she found no difficulty  
...as much as she needed.  
...Madame was entitled to an  
...of £14,000 a year at least,  
...it was possible that her claim  
...four millions in the safe  
...established. And she found  
...quite eager to advance large  
...sums of security and such prop-  
...erty as she had no lack of gold  
...money.

...in the case came on for hearing,  
...Madame won the verdict. She  
...promptly appealed; and  
...the appeal—the court order-  
...the securities should still re-  
...main sealed in the safe. But now  
...there was little doubt that  
...four millions were to  
...be paid over each other in their  
...to let Madame money natu-  
...ally. She was finally settled, especial-  
...ly as she was willing to pay any  
...day's work.
