### How to Make Pine Cough Syrup at Home

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a 16-oz. bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make 16 ounces—more than you can buy ready-made for \$2.50. It is pure, good and pleasant—children like it.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same-inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex"

The table was too long then to be taken into the building and William Lythe, ted to cut it down. Mr. Lythe did just what he was instructed to do and he cut off an even six feet.

It was that very shortening of the famous old table that led to complications and disputes. It caused its authenticity to, be questioned and there was considerable troubleyears of it-to lift the cloud of doubt. But never in all the time there was any question as to the origin of the table did any individual, organization or government claim to have a Confederation table. And even after the table had been firmly established as genuine, almost endless stories were circulated as to what had become of the piece removed by William Lythe. People told of seeing souvenir tables at various places, made from the wood of the original. Each story had to be run down, as each lent some foundation that the entire table had been made into souvenirs. Most of the reported souvenir stories proved false and finally it was established that the part removed from the original was used in repair work of various kinds and so lost sight of. All that is now
