WANTS THE CHURCH TO DOUBLE SUBSCRIPTIONS

Educational Work of Methodist Denomination.

EV. DR. POTTS, of Tothe evening at Wellington Street. It was educational Sunday in

each, and Dr. Potts made a strong plea in behalf of that particular branch of the church work. The congregations were large, despite the stormy weather, and the offerings were liberal. Dr. Potts told his hearers that in the four years beginning in September last he expected the church as a whole to double its subscriptions for educational purposes.

In his sermon at the First Methodist Church, Dr. Potts discussed two propositions: First, that the Church of the Living God, institutionally, is the great teaching mission to the world. In part, he said:

"The Church of the Living God is a wonderful center. The board of trade is a center of commerce. The legislathe uplifting, to the salvation of men.

Why, if this community is like what it used to be and like other communities, there are people in London wondering that you have never spoken to them about Christ. "There is a marvelous teaching in

personal testimony. The church has a great evangelistic mission also. Whereever the Church of God has gone on its evangelistic missions, there we have the flowers of grace until the desert has become the garden of the Lord. The church needs to be able to look at the world with the eyes of Christ "Christianity is in harmony with all light and knowledge, no matter where it comes from. were not the only evidence that the local corps of Salvationists and citizens of London were glad to receive a visit from the distinguished daughter of the likewise dis-tinguished General Booth. There was another evidence of it and the ovation she received must have been gratifying indeed. The way the soldiers, scattered among the immense congregation, shouted "Hallelujah," the looks in their eyes which were signs of that love that followers of purpose have for a leader endeared to them by acts of humanity and a great and pure love for it, and the sympathy shown prominent Canadian railway by every stranger to the Army were tributes to the name and the fame of this gifted woman evangelist. But It Has Proven of Interest and Value to Thousands.

Common sense would suggest that if

one wishes to become fleshy and plump

it can only result from the food we eat and digest, and that food should be albuminous or flesh forming food, like eggs, beefsteak and cereals; in other words the kinds of fods that make flesh are the foods which form the greater part of our daily bills of fare. But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh forming beefsteak and eggs and similar wholesome food. There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs. If such persons would lay their prejudices aside and make a regular practice of taking, after each meal, one of two of Stuart's Dyspepsia Tablets, the food would be quickly and thoroughly digested, because these tablets contain the natural peptones and diastase

by supplying this want the stomach is soon enabled to regain its natural tone and vigor. Stuart's Dyspepsia Tablets digest every form of flesh forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children. Invalids and children, even the most
