Death of Robert Weir.
Robert Weir, one of the oldest residents of London Township, died on Thursday morning. The late Mr. Weir was widely known and esteemed, having lived in London Township all his life. He was 83 years old, and is survived by four sons and two daughters, Mr. George S. Weir, trustee of this city; Professor Samuel Weir, of South Dakota; Dr. Edward Weir, of St. Louis; James Weir, of Strathcona, Alta.; Mrs. Robert Burnett and Mrs. Walter McBain, of Oxbow, Sask. The funeral will take place from the residence of Mr. George S. Weir, Sherwood avenue, to Mount Pleasant Cemetery.

Fine Lecture On "Wandering Jew"

In introducing Dr. Moulton to his audience at the lecture room in the First Methodist Church last night, Rev. Dr. Ross remarked "that no matter what piece of literature Dr. Moulton spoke about, he invariably gave his audience a larger and better conception of it as it was before."
Before Dr. Moulton had finished the truth of this remark was apparent, for many persons who had never read "The Wandering Jew" had decided to read and those who had read it had so many new sides of it presented to them that they decided to reread it.
Dr. Moulton's presentation of one of the greatest French masterpieces was most dramatic and gripped the audience throughout.
The story, which is one of the longest and most absorbing in French literature, is considered one of the greatest masterpieces of plot extant, and deals with the disposal of a fortune of two hundred and ten millions of francs, which had been accumulating for centuries.
The main theme is the wandering Jew, a character destined to wander over the face of the earth from the time of Christ's crucifixion until the division of the fortune, many centuries later.
The wandering Jew is the good character in the story, and his efforts to help those entitled to receive a part of the fortune are set forth in an entrancingly interesting manner. The story is full of exciting climaxes, and Dr. Moulton brought these out with a vividness that was at times startling.
This afternoon Dr. Moulton lectures on "The Legend of Temperance," from "The Faery Queen," and in the evening on "The Cave of Mammon," from the same book.

Will Secure New Club House At Once

A very pleasing and instructive entertainment was given on Thursday evening in the schoolroom of St. John the Evangelist Church, under the auspices of the Young Men's Club—the successors of the St. John's Athletic Club.
After a short address of welcome by the rector, Rev. W. T. Hill, the programme was opened by a delightful piano solo by Miss Steele, of the Conservatory of Music.
His Lordship the Bishop of Huron then gave an address giving the young men some particularly good advice. He especially cautioned them to be honest in their sports; "to play the game," not so much to win, as to win fairly.
The programme included songs by Miss Tury and Messrs. Beech, Mowatt and Flory; recitations by Miss Tury and Mr. George Wright; clarinet solo by Mr. Charles Reed; violin solo by Mr. Davidson, and flute solo by Mr. W. Young. Mrs. Mowatt accompanied on the piano in her usual satisfactory manner.
Although the St. John's Club is undenominational, each member is expected to attend some church regularly.
As soon as possible a clubhouse will be procured and fitted up for recreation and gymnasium purposes. In the meantime, the members meet every Thursday evening in St. John the Evangelist Church schoolroom.

Real Estaters and Niagara Power

The Real Estate Owners' Association last night spent considerable time in discussing the questions of Niagara power and producer gas.
Considerable interest was taken in the discussion, and nearly all the members expressed their views, which were embodied in the following resolution:
"Resolved, that whereas it has been decided by the city council to submit a bylaw for the sum of \$235,000 for the reception, installation and distribution of Niagara power and producer gas.
"It is the opinion of this association that if the city enters into this electrical problem, that it should embrace the whole of the business, that is, supplying, manufacturing and distributing current for power, municipal lighting and commercial lighting, all from the municipal station, and from the one set of street poles, wires, etc.
"Otherwise we think it possible to make a term contract with a private company to do this work cheaper than it can be done under municipal operation."
Want More Information.
The members also want the council to allow the citizens plenty of time for public discussion of the bylaws which are to be voted upon shortly, and to this end send the following request to the council:
"To the Mayor and Council, London: 'Gentlemen,—We respectfully request that the city hall and the east end hall be heated and lighted, and kept open for public meetings for the week nights during the week of municipal nominations, both halls, every night for the purpose of discussing the several bylaws to be submitted at the next municipal elections and other municipal business.
"The Real Estate Owners' Association."
"W. H. FERGUSON,"
"Secretary."

A Vicious Dog Attacked Dr. Cline

A vicious dog gave Dr. C. A. Cline, of Dundas street, a very unpleasant few minutes yesterday afternoon. He was going across the street opposite his home, and noticed a collie dog acting rather peculiarly. He did not pay any particular attention to it for a time, but it suddenly made for him and bit him on the leg. His trousers were torn badly, and a big gash was made in the flesh. The dog was evidently following a lady, but when questioned she denied owning it. By this time it was impossible to get any clue as to whom it belonged.
"I would like to identify that dog, and follow its career," said Dr. Cline. "I would like to know if it was infected with any disease. It was acting very strangely, and I would like to know more about it."
The dog is described as an under-sized reddish-brown collie. It had no collar or other marks of identification.

A LECTURE ON MUSICAL EXPRESSION

A large number of music-lovers visited the Auditorium yesterday to hear Mr. W. H. Sherwood, of Chicago, lecture on musical expression and training.
Mr. Sherwood gave some remarkable demonstrations of what the muscles of hand and arm can be trained to do. His remarks on the laws and principles of musical expression were also greatly appreciated.
In the evening Mr. Sherwood gave a piano recital of classical music, and showed his audience better than anything else could have done how he became known as the American Rubenstein.
Mr. Sherwood's interpretations of the difficult compositions of the masters were most delightful and won for him repeated applause.

Doing Good Work.
The Tait-Brown Optical Company, 237 Dundas street, London, Ont.: Dear Sirs,—I feel it no more than just to you, and to others who may read this letter, to make known the great benefit your glasses have been to me. From childhood I have suffered from most intense headaches, at times almost unendurable. My husband, and several of my friends had been afflicted with glasses by you, and they were so well pleased and benefited, that I was urged to have my eyes examined by you, the examination was altogether different from anything I had ever seen, such care and accurate methods being used, without annoyance to me. After being fitted with your glasses my headache gradually left, and since that time—over a year ago—it has not returned. I don't think anyone can be too loud in their praise of the good work being done by the Tait-Brown Optical Company. Yours very truly,
