COFFEE

WHAT HE SAID: "Mother never made such delicious coffee as this."

WHAT SHE SAID: "Mother never used Chase & Sanborn's Coffee. That's why."

THE BUSINESS REVIVAL

Ottawa, Aug. 31.—The revival of business throughout the country has begun to make an impression in customs receipts. Collections for the month of August showed that importers are getting more goods in than they were during months previous. While the wonderful record of last year has not yet been equalled at the customs department expect that within three months customs returns will be equal to or little above those of last year. Collections during the month of August totalled \$4,276,046, which is just about a million and a quarter less than was collected during August of the year before. However, the month showed a gain of half a million dollars in July, and September is expected to show still greater gains, as returns from customs houses for the past ten days are very large. During the first five months of the fiscal year customs collections have totalled \$18,834,791.

An Increase for G. T. R. Trainmen

Toronto, Aug. 31.—The representatives of the trainmen employed on the Grand Trunk system, who have been in Montreal for some time conferring with the officials regarding wages and the length of their run, returned today well satisfied with the result of their conference. While the men declined to make a statement until they had reported to their different organizations, it is understood that the men will receive about a 5 per cent increase.

Five Are Burned by Molten Metal

Hamilton, Aug. 31.—Ten tons of molten metal flying in all directions caused what will probably be a fatal accident at the east end plant of the Hamilton Steel and Iron Company this afternoon. Five men were seriously burned as a result of the accident, and it is feared that John Soudan will not recover. The other four men were injured in the accident.

The C. P. R. Can Handle the Crop

Montreal, Aug. 31.—G. M. Bosworth, freight traffic manager of the C. P. R., states that despite the mechanics' strike the company does not expect any interruption to the handling of the grain traffic from the west. This traffic has started already, and the company claims that it will be all taken care of despite the strike, as they have plenty of cars and locomotives to handle the business.

Officials say that 88 skilled mechanics were taken on today by the C. P. R., and it is claimed that a number of them were strikers. Nearly all were

PUT ON TRACK WORK

Harvesters Have To Be Content With Railway Building.

Ottawa, Aug. 31.—A telegram received at the labor department yesterday from Mr. J. Bruce Walker, commissioner of immigration at Winnipeg, states that the farm labor congestion has been somewhat relieved at Moose Jaw and Southern Manitoba by distribution of Reports from Indian Head, Virden, Brandon, and other points show that those towns are feeding about 100 men each. The C. P. R. has engaged some of the men to work at double tracking east of Winnipeg. Threshing will likely be general this week, and no more men are required from the east.

TO SET ASIDE INJUNCTION

The Supreme Court Asked To Intervene by the Foresters.

Rochester, N. Y., Aug. 31.—John A. Bernhard, representing the supreme court of the Independent Order of Foresters, appeared before Justice Benton in special term of supreme court of Monroe County this morning and asked that the temporary injunction granted Henry J. Simmellink be set aside. Decision was reserved.

At a meeting of the supreme court of Foresters at Toronto on June 25 the rates of members of the order beyond a certain age were increased nearly 33 per cent.

Immediately the action was taken Mr. Simmellink obtained an injunction restraining the Supreme Court of Foresters from taking any action.

THREE INJURED.

Montreal, Que., Aug. 31.—Three persons were injured in a railway wreck on the Canadian Northern last evening between Huberdeau and Arundel. The coupling of two passenger cars broke going down a grade, and the rear section crashed into the first section, causing considerable damage. Two of the injured were passengers, one a lady, who had her nose broken, the third a brakeman, who was thrown from the car and had his back injured.

There are 26.78 miles of railroad line in the United States for every 10,000 inhabitants, as against 6.2 miles in Germany.

AERONAUTS DROP INTO LAKE ERIE

British Army Balloonist and Companion Picked Up by Passing Steamer.

Buffalo, Aug. 31.—The balloon Queen Louise, which started with two other balloons from Columbus, Ohio, Saturday afternoon with Lieut. J. J. Bennett, of the British army balloon corps, as pilot, and accompanied by Tom L. Sample, was picked up in Lake Erie yesterday afternoon, off Pigeon Island.

Owing to a defective valve the pilot was unable to keep the balloon aloft. After throwing out all of their ballast they signalled the steamer Mohegan, and signalling that they were in danger the captain of the ship accompanied them for nearly ten miles, when seeing that it was impossible to keep the balloon in the air any longer they cut the gas bag and permitted the gas to escape. The two passengers with the balloon were taken aboard the Mohegan and brought to this port, arriving here this afternoon none the worse for their mishap.

Lieut. Bennett, in speaking of the trip, said that all went well until they struck the lake. "When I attempted to make a landing I discovered that the gas valve was stuck and would not open."

"About 2 a.m. Sunday, we were over Lake Erie and not more than 200 feet above the surface, our gas had become chilled, but we managed to keep aloft. When the sun began to rise it expanded our gas and caused us to ascend. We got up to an altitude, so far as I could estimate, of about 20,000 feet. We laid down in the basket and fell asleep. I awoke with a start, feeling a rush of cold air over me. The air had again condensed the gas and the balloon was dropping. We dropped possibly 10,000 feet within a few minutes, going down at a terrific speed. When we reached warmer currents the balloon balanced again and we sighted the steamer Mohegan. We signalled the vessel and Capt. James Cunningham agreed to stand by. On signal from the balloon, the captain lowered boats and rescued us from the rigging of the balloon to which we were clinging. I having pulled the rippling cord and permitted the gas to escape and the balloon to drop into the water."

Lieut. Bennett will go to Springfield and Mr. Sample to his home in Columbus, Ohio.

CANADIAN

Winnipeg's new postoffice will be opened next month.

No trace has yet been found of the Montreal postoffice robber.

W. G. Gorvett's factory and planing mill was destroyed by fire at Arthur.

Edward Smale, a well known woodstock man, is dead from typhoid fever.

By the upsetting of his boat, Eddie Rowley, aged 12, was drowned in Red River, at Selkirk, Man.

Ed. C. Harding, wanted in Cincinnati on a charge of embezzlement, was arrested at Windsor.

Getting beyond his depth, James E. Birmingham, aged 25, was drowned at Gananoque while in swimming.

Levell, a sailor on the Hesperian, sustained fatal injuries by falling into the hold of the ship at Montreal.

Rose Julian, aged 2, fell into an inlet a short distance from her father's home at Hamilton and was drowned.

Earl Minto has forwarded \$25 to the Wentworth veterans, as a contribution to the Stoney Creek Monument Fund.

Virginia, 4-year-old daughter of Nelson Bouquins, Chatham, fell into a pail of hot water, and died as a result.

Stephen White, Halifax, aged 91, was seriously burned by the upsetting of a lamp and is not likely to recover.

While temporarily insane, John Stanton, aged 78, tried to commit suicide by hanging in his son's barn near Chatham.

David Black, diver, had a narrow escape from drowning while working 50 feet under water by a stoppage of the air supply.

While returning from his daily trips through the city, James Stapleton, aged 64, dropped dead at his home near Newcastle.

The body of Edward Crawford, Thorold, was found on the G. T. R. track at Bridgeburg in a horribly mangled condition.

Having served 20 years in the militia, Oliver S. Oliver, a Winnipeg icemaker, is to be decorated with a long service medal.

The Chicago and Milwaukee Railroad is negotiating for running rights over the Chicago and North Western River and the C. N. R.

Monk Man, the Chebanian who escaped from the "Crown of Aragon" was discovered hiding under a bed in Montreal and taken back.

In trying to "smoke out" a hive of bees the Hotel Dieu Chapel, at Montreal, caught fire and a serious outbreak was narrowly averted.

A story is current in Montreal to the effect that Lord Strathcona is to retire and become an earl, and Sir Montague Allan is to become high commissioner.

St. Thomas police arrested two men on a charge of defaming Thos. Mero at Tilbury, and then found they had two tourists, one a wealthy man from St. Louis and the other, his servant.

A TRAMP'S REVENGE

Refused a Lodging, He Fires Barns and Outbuildings.

Brockville, Sept. 1.—On Friday night a tramp appeared at the farmhouse of Wm. Curtis, two miles south of Brockville, and applied for lodging. This was refused, and the next morning when Mr. Curtis went to his barn he found the stranger there. He was ejected, and left the place, informing the landlord he would make it hot for him. Mr. Curtis thought nothing more of the incident until he was returning from a cheese factory between 7 and 7:30, when he saw in the distance all his outbuildings in flames. They were totally destroyed, together with all the contents. The insurance on the buildings was \$400.

EXONERATES HIS FRIEND.

Bellefonte, Aug. 31.—Padoo Bogdan, the young Serbian who was accidentally shot by a companion, recovered consciousness and corroborated the story of the shooting that the affair was accidental. The victim died this afternoon about 6 o'clock.

Jonesboro, Arkansas, Sept. 1.—Mrs. Pickett yesterday shot and killed her husband, a well-known resident of Jonesboro, because she alleges he was "mean to her and abused her."

Mrs. Pickett escaped with her stepfather, a prominent farmer, but both were arrested later. Mrs. Pickett confessed.

STEALING A MARCH.

London, Sept. 1.—A dispatch from Tangier to the Times complains that Germany is stealing a march on the other powers by secretly sending her consul back to Fez, evidently, the correspondent thinks, with the intention of being considered by Mulai Hafid as the first power to recognize him and to have a confidential adviser at the new government's side.

STEERS DIED FROM RABIES

The Men Who Handled Animals Have Gone to New York for Treatment.

Cayuga, Aug. 31.—A colt belonging to Mr. Gordon Hoover, in the township of Bathurst, died recently, and the following day two steers on the same farm showed signs of the same sickness, foaming at the mouth and otherwise behaving in a way which led to the belief that they were suffering from some infectious disease. One of the steers died, and the other animal was so bad that it was decided to shoot it. The owner, Mr. Hoover, gave the animals medicine, and in the meantime called in a veterinary who was not prepared to say that the animals had rabies, and thought the symptoms more like anthrax.

Mr. Hoover got some abrasions on his arm while handling the animals, and he became alarmed lest he might become infected. After consulting the doctors at the New York Institute, he decided to go there for treatment. It is not known how the animals contracted the disease.

A day or two later a third steer became ill, and was shot.

A Government inspector was called, who ordered that none of the stock be removed from the farm. In the meantime Mr. Henry Umy, who assisted Gordon Hoover at the shooting of one of the steers, and got some foam on his face, became alarmed lest he also might become infected. After consulting the doctors at the New York Institute, he decided to go there for treatment. It is not known how the animals contracted the disease.

A number of animals not far from Cayuga were reported some weeks ago to have been bitten by a mad dog.

Winnipeg's new postoffice will be opened next month.

No trace has yet been found of the Montreal postoffice robber.

A \$50,000 FIRE

Big Cold Storage Plant at Montreal Heavily Damaged.

Montreal, Aug. 31.—Fifty thousand dollars' damage was caused this evening by a fire which broke out in the cold storage warehouses of Gunn, Langlois & Company, on St. Amable street, in the heart of the congested district. The fire broke out just as the staff were leaving at six o'clock, and a double alarm was given, calling out 375 firemen from the central division. There was over half a million dollars' worth of cheese, butter, eggs and other perishable goods in the two warehouses.

The fire broke out in the top story, close to the ammonia tanks and condenser, and a stiff night was had keeping the flames away from these. The fire was out in an hour and a half, the flames having been confined to the section of the building where they started.

Most of the damage was caused to the stock by water. Messrs. Gunn & Company estimating their losses at between \$30,000 and \$40,000. The building was damaged to the extent of from \$15,000 to \$20,000. The losses are fully covered with the Norwich Union, Western and Lloyd's insurance companies.

The Somali soldier keeps himself in perfect condition on a diet of nuts. He eats only 20 a day, but they are of a very nourishing kind.

HELD UP BY STORM

Many Trains Stalled Owing to a Western Cloudburst.

Winnipeg, Sept. 1.—A cloudburst near Kenora has worked havoc with the C. P. R. main line, with the result that all the transcontinental trains are many hours late. The heavy rains have washed away the dump in many places, and the rails have sunk so that it is impossible for a train to pass over safely.

All the damage done is west of Kenora. As soon as it was seen what damage there was the company sent out every available man to have the tracks repaired, and the work is being rushed. The officials state that the trouble is the worst that they have experienced with water.

The company is caring for the passengers in the meantime. Two crowded Toronto trains are held up. Five westbound trains are stalled. The westbound trains are No. 97, No. 1 and No. 95, and the eastbound are No. 2 and No. 94, the transcontinental and Toronto train, respectively.

BIGGER THAN LUSITANIA.

London, Sept. 1.—The Times stated that the new steamship of the White Star Line, just laid down at Belfast, will be bigger, but not speedier, than the Lusitania.

The newest forge does away with the usual bellows, being fitted with a compressed air tank.

MORE PULPWOOD CONSUMED

Increase of 301,484 Cords in 1907 Over Highest Previous Year.

Washington, D. C., Aug. 31.—Pulpwood consumption for 1907 was greater by 301,484 cords than that in any previous year. These figures are furnished by the census bureau, compiled in co-operation with the department of agriculture and the forest service.

The consumption of pulpwood last year shows the highest average value per cord for all kinds of wood, and an increase of ninety-six cents per cord over 1906, the highest preceding year. It also shows an increase of 186,500 cords in the imports of pulpwood. Of the two woods imported, spruce and poplar, spruce shows a percentage of increase nearly twice as great as that for poplar.

Since 1900 the amount of wood consumed each year for pulp has increased, in round numbers, from 2,000,000 cords to nearly 4,000,000 cords.

ACID BY MISTAKE.

Listowel, Aug. 31.—This morning when the men returned to work at the woolen mills they found Arthur Brook, son of the proprietor, aged about 24 years, lying on the floor very ill. It was learned later that he had taken sulphuric acid in mistake for medicine, from the effects of which he died about three hours and a half after being discovered.

SENT TO THE ROCKIES FOR HEALTH, RETURNED HOME TO DIE

The following should inspire every one who is discouraged on account of continued ill health to give Psychine, THE GREATEST OF TONICS, a trial before giving up hope even though physician and friends think and say your case is hopeless. Mr. Alex. McRae, of Sault Ste Marie, says:—"I was failing every day and had to quit work. I lost 46 lbs. in a short time and was advised to go to the Rockies or the Coast. I tried them both with considerable expense but I got worse instead of better. All hope seemed to leave me and I decided to come home to die. I tried Psychine and since starting its use I have gained from 110 to 141 pounds. I am now a well man and I cannot say too much in praise of Psychine. The strongest recommendation would be weak in view of the fact that I believe it has saved my life. It is without doubt the best remedy for run-down conditions and weak lungs. I sincerely hope that you will continue your good work of saving run-down people and consumptive from the grave."

Psychine improves the appetite and generally tones up the system. We would like every family to try it FREE (see coupon).

All druggists and stores sell at 50c. and \$1.
