W. A. Amos, president of the U. F. O., urged that the work of the committee be carried on without politics. He stated that he thought the time had come when the farmers should forget politics in view of the seriousness of their position. Secretary Bothwell of the U. F. In this connection Chairman Dr. Jamieson stated that the committee intended to approach the banks on the question.

CHICAGO.

Associated Press Despatch.
Chicago, Aug. 27.—Continued unfavorable crop reports were chiefly responsible for the upward swing in the corn market during the early dealings today. The opening varied from unchanged figures to 1½c lower. The market rallied quickly, May delivery showing a gain of more than 3 points from the early low.

Weakness in Liverpool cables as a result of yesterday's break in wheat values on this side of the Atlantic, together with estimates of a much larger Canadian yield, better prospects in Australia, and an easier tone at Winnipeg, gave the wheat market a downward slant at the outset today. After opening at ¾c to 1¾c decline, the market scored an unturn which carried values to above yesterday's finish.

Oats were moderately active, and after a minor break at the start on early selling, rallied or kly, with no material pressure. In a quotations, which were ½c higher to ¾c lower, were followed by a slight general rise. Futures opened:
