SATURDAY, JANUARY 12, 1924.

SUNSHINE AND SHADOW.

Rt. Hon. Arthur Meighen at London, Jan. 11:

"Capital is timid; business is in a case of stagnation and we have retrogression instead of advance.'

John J. Scully, general man-Jan. 11:

"More business will be done by the Canadian Pacific Railway of 1923. Business conditions at present are quite satisfactory. I shortly see an improvement. I do not hold with those who prophesy business depression in this country. There is too much of i that sort of thing. What we need is more confidence and more cooperation.

Mr. Meighen the Same.

The Meighen banquet in Londo was a success. The crowd was large and enthusiastic, the speeches fier and to the taste of the Conservative school of thought.

Mr. Meighen has not changed; he public life in Canada. High pries on the school of blue ruin, he had nothing constructive. His whole plea was "If you do not elect a Con- United States. Even as it is, in will be ruined."

One or two of Mr. Meighen's state ments are typical of the burden of his address:

bottom of the commercial stagnation that today pervades the country. Our tariff every session is determined by a process of log rolling and bargaining designed t get Progressive votes. Capital stagnation and we have retrogression instead of advance.

The answer is that the Progre sives voted almost to a man agains the government on the budget. Mr. house when it took place.

He pays a mighty mean tribute to the people of Canada, who, facing a huge debt, the consolidation of a railways system that was bankrupt, but now fighting its way back to success, are able to show increasing trade returns month after month.

tion." That is the message that this to May 27, 1921, entered United Jeremiah of the Conservatives has States free. In November of 1921 nscribed on the banner he has been Canada exported \$9.577.063 trailing from province to province. November of 1923, \$734,204. The dir will hang his crepe elsewhere.

Statement No. 2 from the Conservative leader:

"This Dominion under free trade would be a mere commercial subserviency to the great republic to the south, and the vast mass of the people of this country know it

Mr. Meighen is the one person talking free trade

ing free trade.

Mr. Meighen has sat across from its members in the house for two And yet, for political purposes, addressing a body of men who are power. inclined toward a high tariff, he seeks to leave the impression that there is a free trade movement on by the government at Ottawa.

Mr. Meighen is capable of better things. He has a wide knowledge of Canadian and world affairs, an easy command of good language, and the faculty of presenting a case well. With these qualities he should be able to speak constructively and advise positively. But he does not. and therefore we take it that he cannot. His only cure is in the folowing:

"The Conservative party, which in days gone by has been called upon, and never in vain, to rescue Canada from conditions such as this, will soon come to office, and come to office unhampered, un-shackled, unburdened by dishonest commitments which it cannot fulshackled, unburde fill, but free and able to serve the people of this Dominion."

of "business stagnation" has nothing them, and know little of such Editor of The Advertiser: new to offer. He has not budged matters, do the best they can, which from the path he travelled when the may be good, bad or indifferent. people of Canada turned him out bag and baggage in December of not be excessive, and it should be

Not Selling Out.

An effort is being made to show that the Liberal party at Ottawa is prepared to hoist the free trade flag in order to get the Progressives to come over and support the government. There is hardly a despatch

An effort is being made to create feeling of misgiving in the mind his claim of the business world that there will be a quick move at tariff readjustment in order to satisfy the west.

Premier King made it very plain and no reason to fear his ministry He has lived up to that promise, and there is nothing to indicate that he has any intention of departing from that position.

At the basis of any tariff there ager of the C. P. R., at Toronto, must be common sense, and a facing f actual conditions. Whether political parties say so or not, a tariff comes into existence to raise revin 1924 than the splendid record enue, and revenue is necessary because money is being spent.

A tariff for revenue becomes believe, in addition, that we will tariff of protection. The more taxes a government finds it necessary to take from the people, the greater the protection afforded.

> Apart altogether from the theor f taxation, Canada has to consider ner own case. She came out of the war with a debt, the size of which few appreciate. In order to provide or that and the expenses of administration it is necessary to have very positive methods of getting the noney, and so it is that Canada has both direct and indirect taxation.

Living as we do beside United tates, our choice in the matter of tariffs is somewhat taken away fron cannot. He is the best nagger in us. If we had no tariff and the United States maintained its presen wall, it would mean that nearly al our purchasing would be done in servative government in Canada, you farm produce we are trading on an unequal basis. Canada ships pound of butter to United States, and the tariff is eight cents per pound a pound of butter comes to Canada and we levy four cents. Cheese from Canada entering United States i subject to a tax of five cents pe pound, and this must be equal to 2 per cent of its value; cheese comin from United States to Canada pays

three cents, regardless of its value When Canada ships wheat across the line it is taxed 30 cents per bushel, and there is a demand to make it 45 cents. Were Canadians Meighen knows that; he was in the to bring in wheat from the States the levy would be 12 cents per bushel. If the wheat is made into flour it goes to the market to the south at 78 cents per hundredweight; in case it were coming north we would let it in at 60 cents.

The extent to which the United States tariff has hurt us can be seen "Business is in a state of stagna- in figures. Take cattle, which prior

That is the whine that he harped on | ference is between a free market until the people of Western Canada and one that now levies a tax of were longing for the day when he 11/2 cents per pound on animals of would close his campaign of gloom 1,050 pounds, and two cents over and depart. That is the message he that, amounting to about a 25 per brings to Ontario, "Business is in a cent rate. In November of 1921 Canstate of stagnation." Ontario will ada sent to the U.S. market 36,952 thank Mr. Meighen heartily if he sheep, duty free; in the same month of 1923 we sent in 9,096, less than one-quarter of the 1921 shipment. The reason is a \$2 per head tax instead of a free market.

Ottawa is pledged to be ready to discuss a mutual trading arrangement with Washington when the latter is ready. Until that time arrives, there is little she can do in that direction. We cannot take down The King government is not talk- bars while United States piles them

Back of it all stands world conditions. Europe-sick, tired, hard up years, and he cannot, dare not, say to the point of starvation-cannot that they are free traders, or that buy. She hands out her crumpled they have moved in that direction. and discredited currency, but it means nothing to us-it has no

In such circumstances it would be easy to start tariff changes on the poor policy of doing this ached to the Humane Society where poor policy of doing something. The King government is not to be caught up with any such ill-thought idea. don, and it would meet with plenty The premier himself knows world of support, and people would have conditions, and any tariff change he sanctions will certainly be in the per treatment. It would stop such direction of giving relief to Canadians without working a hardship on any section of them.

For Sick Animals.

The movement for the establish ment of an animal hospital in London in connection with the Humane Society is commendable.

At present there is no place for a sick dog, horse, or other animal. where it can be left and properly treated.

CAN EUROPE HOLD TOGETHER?

Chapter V.: "England's Problems."

This series of articles is a simple but accurate explanation of world | would like to have me for a husconditions, from the point of view of a distinguished specialist. These leaving Ottawa that does not try in some way or other to stress this for securing the data—a trip on which he visited sixteen countries, talked with the premiers of half of them and the finance ministers of twelve, and in field observations secured a mass of facts. Mr. Sinclair says finance and economics can be told so simply a child can grasp them. His articles prove could not understand that if women

Sixty-two per cent of the total trade was with other countries. Her cur-rency was sound and inflexible. By in his election addresses that any industry making a legitimate profit rener was sound and inflexible. By this I mean her total governmental of the currency. Inflation is theft expenditures were paid each year by the state. Who gets the money receipts from taxation. She had a so stolen? The nation as a whole is density of 371 people per square mile, against 313 for Italy, 311 for Germany, and 191 for France, yet in 1914 her per capita income was \$243, as against \$112 in Italy, \$146 in Germany and \$185 in France. She had then outstanding 223 millions of dollars of bank notes, and 144 millions of dollars of gold reserve. In ther words, for every dollar of note

During the war she increased her circulating bank notes to 2,333 millions of dollars, while her gold re-serve was only increased to 389 millions of dollars. To put it in another way, her circulating bank notes increased during the war 10½ times, while the gold reserve increased only For every dollar of bank notes outstanding at the end of 1918 she had only 16½ cents in gold to

goods, the prices of articles went up and the purchasing value of the money went down. Taking the average wholesale prices in July, 1914, as 100, we find that prices for the same articles averaged in 1918, at the close of war, 232. That is to say, and due chiefly to inflating the currency, an article which cost \$100 ncy, an article which cost \$100 has tried deflation. She 1914 cost \$232 in 1918

War Cost 75 Per Cent-Borrowed. In spite of the fact that England during the war raised more money than any other European beligerant taxation, still she was forced e concretely, Britain spent 41,900 ons of dollars exclusively for the ollars by taxation. For every dollar pent for war she raised 23 cents rom total taxes. The difference, 4,170 millions, plus another 1½ milons of dollars for expenses of govrnment other than for war, she aised by borrowing money and by flating her currency. How did she raise the 36,000 mil-

of dollars, 97 per cent of which ncreasing her national indebtedmillions of dollars, more than

The motor regulations say

By JOHN F. SINCLAIM.
England was king in the international trade of the world in 1913. culation increases the floating debt of the state, which issues treasury neither richer nor poorer as a result of the increase of note circulation, ust as in the case of the increase of the domestic debt. However, in both cases, the owners of war industries are enriched at the expense of the wage earning, salaried and bondholding classes.

an effort to convince the writers that they are wrong; but I fear the old saying, "convince a person or persons against their will they are of the same opinion still," might apply "I asked if he read Staminoff, And he replied—" Min cut her off: "I'm going to bob my hair some fine—" the domestic debt. However, in both

\$10,000 SHRINKS TO \$3,000.

in 1914. Let us suppose that in June, 1914, an Englishman died, leaving \$10,000 of life insurance to his wife Dundas St., London. and three small children. She, on the recommendation of a reliable trust company, reinvests her money in a splendid high-grade municipal bond, maturing in 1920, netting 4 per cent interest. The transaction is cent interest. The transaction is completed and she received her money in 1920. But with the \$10,000 Editor of The Advertiser: she had only 16½ cents in gold to pay with. On July, 1914, the note circulation was equal to \$4.84 tor every person in England. On October 15, 1919, it was \$50.62.

What happened? With a far greater increase of money than of grounds, the prices of articles went up and the purchasing walks of the can only get \$3,010 worth of goods in 1920. For her industry and thrift \$10,000 in the first product of the last week, I have been reading your article concerning an animal hospital for the city of London, and I am very much interested in this myself.

I have been a member of the Hubalanced society in times of war is believed to the can only get \$3,010 worth of goods in 1920. For her industry and thrift \$10,000 in 1920. Sir,—In your papers of the last week, I have been reading your article concerning an animal hospital for the city of London, and I am very much interested in this myself. she can only get \$3,010 worth of goods in 1920. For her industry and thrift

creased her paper currency from the high mark by almost 20 per cent, or 440 millions of dollars. But it has been accompanied by the worst industrial depression in her entire history. Appalling bankruptcies, many suicides, great failures, increasing unemployment. The English social and industrial order has been shaken and he explained many pitiful cases to its very foundation. The wage workers today, the second most powerful political group in England, demand a reduction of the domestic debt by a capital levy on swollen fortune. fortunes. They declare they cannot support the overhead tax and main-same as myself, that wou a decent standard of living. One the other must go. Unemploy-nent government doles now equal one million dollars a day. The num-ber of men and women out of work has increased 130,000 during the past 0 days as this is written, and win is coming. So is hunger and suffering and death! The government, harrassed by the Ruhr invasion and the breakdown of international trade, is faced with s faced with the greatest problem t was easier to stop the war than stop inflation.
