

FORESTRY COURSE IN THE TEXAS JUNGLE

Twenty-Nine Yale Students Go
Down to East Texas Pine
Forest to Learn About
Trees

Austin, Texas, June 18.—Twenty-nine students are in the East Texas yellow pine district taking a laboratory course in forestry. Two professors accompany them. The students are camped in the thickest of the timber territory, in the very jungles of pine, and in this last term of their course in the Yale forestry school, though they are far from Yale, they are doing full work daily and getting credit for it, and will graduate this month with just as much effect to their diplomas as the B.A.s and LL.B.s and the B.D.s and the other fellows in cap and gown and marching processions who finish their course with all the ceremony and display of the commencement occasion.

The boys arrived in Texas early in March. It all came about through the interest and efforts of J. Lewis Thompson, president of the Thompson Bros. Lumber Company. Mr. Thompson wrote a letter to Professor R. C. Bryant, of the Yale Forestry School, inviting the professor to bring the senior class to the Thompson brothers' forest in Tyler County, Texas. The invitation was accepted and the boys arrived at the camp on March 5.

Mr. Thompson provided the cabin, arranged inside with bunks to accommodate the entire party. It was not so elegant a dormitory as Vanderbilt Hall, perhaps, but it was clean and big enough. The boys, however, said they had come to camp and they wanted a camp. So they pitched a group of tents in the timber near the cabin, and most of them sleep out every night, though a few accept the hospitality of the rude dormitory.

"Better a New Haven," is the way one of the "foresters" describes the place. Probably the fare isn't any better, maybe not as good, but the exercise in the woods, the open air and the pine-scented atmosphere and the clear sunshine, and a score of other features, all have influence combined to create wonderful memories. The joy bell at the mess hall never fails to bring unanimous response.

"Salada" Tea remains in favor year after year with enormously increasing sales, simply because it always true to its high standard of quality.

TRUSTED EMPLOYEE CHARGED WITH CRIME

A C. P. R. Assistant-Ticket
Agent in Vancouver Is Fugitive
From Justice, and Is
Accused of Embezzlement

Vancouver, June 18.—Robert Scott, a trusted employee of the Canadian Pacific Railway Company, is a fugitive from justice, accused of the embezzlement of funds belonging to the company reaching an amount variously estimated at from \$1,000 to \$2,000. On Monday morning young Scott failed to report as usual and it was believed sickness kept him away. His home was called up over the telephone, but there nothing was known about his absence except that he had not been seen since Saturday night. Nothing was known about his whereabouts until Monday afternoon, when two experts were set to work checking up his accounts. The investigation occupied the position of assistant ticket agent, and handled thousands of dollars in cash in the course of his daily ticket selling. Many tickets are unaccounted for. Just how great the amount of the alleged peculations is, the experts, who are still at work, are unable to determine, but the amount is very large.

Monday night a warrant was sworn out charging the young man with embezzlement, and his photographs and description are now in possession of every police department in the West. As soon as the information was laid before the local police, the wires were kept hot notifying other departments that a warrant for Scott's arrest was out, and asking that if captured he be held and local officials notified.

The young man accused had a very promising career before him. He had been employed for some time by the C. P. R. in a position of trust, and his promotion had been rapid. From all accounts, several months ago he took to running with his characters playing cards and drinking heavily. There is said also to be a woman at the bottom of the trouble. He was frequently seen in company with a woman of ill-repute, it is said, and at her door his downfall generally is laid.

COMMODITIES CLAUSE IS MORE LIMITED

Washington, D. C., June 18.—The mandate of the Supreme Court in the U. S. in the case of the government against the anthracite coal roads, involving the constitutionality of the commodities clause of the railroad rate law was issued yesterday at the request of the Attorney General.

It directs the U. S. Circuit Court for the eastern district of Pennsylvania to reverse its former verdict holding the law unconstitutional and enter a verdict in accordance with the finding of the Supreme Court that the effect of that while valid the law is much more limited in its application than the department of justice had contemplated.

St. Mary's, Ont., June 18.—Raymond Wilson, aged 18, was drowned in Rice lake last evening while canoeing.

THE EGYPTIAN'S SECRET

The Egyptians of Pharaoh's time were a wonderful people. The pyramids, for instance, put our modern buildings to shame. Where such huge blocks of stone were carved—how they were moved and piled in place—are mysteries to modern minds.

The Egyptians were skilled physicians, too. We know that they used fruit juices in treating many diseases. Some years ago, a physician in Ottawa discovered a method of combining the juices of apples, oranges, figs and prunes, by which the most remarkable results have been obtained.

Whether "Fruit-a-tives" (these combined fruit juices in tablet form) are a re-discovery of the prescriptions of the ancient Egyptians will probably never be known.

Certainly, the ancients never had a more effective remedy than "Fruit-a-tives" for all Stomach, Liver, Kidney and Bowel troubles. "Fruit-a-tives" are sold by dealers at 50¢ a box, \$1 for \$2.50, or trial box, 25¢—or sent post-paid on receipt of price by Fruit-a-tives, Limited, Ottawa.

New Brunswick Fires.

St. John's, N. B., June 18.—Forest fires are again springing up. Prediction reports fire at the head of Penule stream, and at Stephen one near Moore's mill, the latter under control. In Northumberland county, Newcastle reports a fire which threatened the village of Beekmantown seriously for a time, but was under control last night. Chatham reports that fires can be seen from Douglas town, across the Miramichi river and another back of Nelson.

Commended by Lord Roberts.

Montreal, June 18.—The Ogilvie Flour Mills Company received the following cable yesterday from Lord Roberts: "Heartiest congratulations on the splendid example you have shown to employers."

Killed by Storms.

Vienna, June 18.—There has been great loss of life and damage to property in the Sankof district by thunderstorms. Many houses have been struck by lightning and the occupants killed. In one case in a house in which fifty persons had sought refuge from a deluge of rain ten men were killed.

A COLLARLESS COAT IS INVENTOR'S PRIDE

San Francisco, Cal., June 18.—R. F. Porter, of Oakland, inventor, promoter and writer, is considerably elated because the dictators of fashion in men's wearing apparel are apparently taking up ideas which he originated nearly a decade ago.

Porter created something of a stir among his acquaintances in San Francisco in 1930 by appearing in a collarless and buttoned coat. He asserted distinct advantages over the garment with the roll collar and lapel. Porters labored assiduously to bring his friends around to his way of thinking, but was unsuccessful in inducing them to add his ideas for the reformation of dress, and after a while he gave up trying.

After nine years of patient waiting his reward came with the arrival of a leading New York fashion publication, which illustrated as one of the spry novelties for men a collarless coat embracing the same ideas which Porter had unsuccessfully endeavored to introduce.

Porter is now devoting much of his time to the development of a process for the economic conversion of the salt water of the ocean into fresh. He is following the lines along which he works in drawing the waters of the ocean into the upper atmosphere and returning them to the earth in the form of rain.

The process on which he is working is based on principles of precipitation instead of condensation, which method of conversion is already in successful use.

GOVERNMENT ANNUITIES

Revenue Received Up to Date Is Given
at \$160,000—Active Propaganda
Intended

Ottawa, June 18.—The revenue up to date from the government annuities totals \$160,000, and the total number of applications is 228. The revenue of late has averaged \$20,000 a week, but on one day of this week \$10,000 was received.

The system of annuities was inaugurated only in September last, and the first few months were necessarily devoted largely to matters of organization. A number of agents and lecturers have been engaged, three in Ontario, two in Quebec, one each in Nova Scotia and New Brunswick, while the west has not yet been provided for. It is intended to carry on an active propaganda.

The department is about to enter upon negotiations with the manufacturers of the country suggesting the purchase of annuities for employees.

Rain Quells Forest Fires.

Presque Isle, Maine, June 18.—A torrential rain early today brought to an abrupt halt the ravages of the forest fires. A high south wind yesterday instilled new life into the smouldering embers and caused much anxiety among the residents who feared that the district would again be fire-swept. The precipitation today was very heavy and continued from shortly after midnight until late in the forenoon. The rain was also believed to have extinguished the forest fires in New Brunswick.

Sloan Has Nothing to Say

Nanaimo, June 18.—Mr. William Sloan, ex-M. P., has returned to the city from Ottawa. He has nothing to say regarding the various rumors that have been going the rounds of the press as to what the Government has in store for him.

Bathing Beach for Nanaimo

Nanaimo, June 18.—Enterprising citizens have taken up the matter of a bathing beach for the city, and as the result of a subscription list that has been around the city a long felt want is now at work preparing a proper bathing beach on Newcastle townsite. The beach will fill a long felt want in the city and further add to the attractiveness of Nanaimo during the summer. Bathing houses are to be erected and every convenience possible afforded to bathers.

THIS WOMAN ISSUES LICENSES TO MARRY

Mrs. Barbara Davidson, of
Windsor, Ont., Is the Only
Woman in Ontario Who Has
That Distinction

Windsor, Ont., June 18.—Bearing the proud distinction of being the only woman in Ontario to whom the privilege of issuing marriage licenses is granted, Mrs. Barbara Davidson holds forth in her little office at the foot of Quellerie avenue, this city, and greets with a glad hand and a smiling face the lovelorn couples who may apply to her for permission to marry. The job is done thoroughly, too. All that is needed after the license is obtained is a minister to make the sweethearts happy for life.

The license privilege was held by Mr. Davidson before his death, a year ago, and it was thought it would revert to the Government on his decease, but through the efforts of friends his widow was allowed to continue in the business, which has not decreased by the change.

"I was of the opinion that young couples would not care to go to a woman to secure their licenses," says Mrs. Davidson. "But it seems to be the other way. I have been installed since April 28, and have issued, on the average, a license a day."

Mrs. Davidson has about the best situation of her kind in Windsor. In the rear of her home is a large property of all passengers leaving the ferryboats, is her office, with its desk and bunches of legal appearing, and for prospective brides and bridegrooms to sign their names, before they may become man and wife.

June, July and August are the best months, according to those who know, for the runaway marriages, and it is then that the marriage license issuers reap their largest profits, although "it never amounts to any more than small change," as is in the business puts it.

"When the excursions start then and the lovers," is a main emblem, is in the minds of those whose business it is to add one and one. From all the cities and villages on the lakes where trains and steamboats run a long procession is starting, and struggling will continue to provide pin money for the worthy "spicers" of Windsor.

To Investigate Inquest

London, June 18.—Home Secretary Gladstone promised in the House of Commons yesterday, to investigate the inquest on the death of Mary Agnes Kula in this city last May. It furnished with the facts.

French Merchants Protest.

Paris, June 18.—The Federation of French Merchants have lodged with the ministers of the interior, finance and foreign affairs a protest similar to that of the committee of the Forges of France against the lifting of Steel common stock on the Paris bourse.

Montreal Firms Suffer.

Montreal, June 18.—Four firms suffered here yesterday by separate fire broke out within an hour of each other in adjoining buildings. The firms are J. J. Smith and Nephew, Robert S. Fraser and Co., woolen and millinery supplies, and the Canadian Rand and Co. The loss is between \$15,000 and \$10,000.

GERMAN COURT SETS PRICE ON Moustache

The Kaiser's Variety, Accord-
ing to This Authority, Is
Worth \$17.50 When the
Owner Loses It By Malice

Berlin, June 18.—The Law Courts at Posen have just decided an action for slander, which appears to fix, for purposes of precedent, what a German is entitled to ask for the loss of his proudest adornment—a "kaiser" moustache.

The suit was brought by a master-butcher named Laurentowski against three wealthy cattle-dealers. It appears that the cattle-dealers came to Posen to attend the dedication of a new cafe. There was much hovering over the flag, and by night, according to Herr Laurentowski's tale, all three were in a state of high excitement. They were self-possessed enough, however, to concoct the idea of ragging Herr Laurentowski, whom they proceeded, with the aid of a tailor's shears, to despoil of his luxuriant moustache. Then with the same weapon, wielded as a scythe, they cut a couple of ravines 1-2 inches wide in different directions through his head of wavy brown hair. The next day, when the butchers and cattle-dealers of Posen were assembled in the market-square, Herr Laurentowski was held up to the ridicule of his confederates by the antics of his discomforted, and he decided thereupon to prosecute them for public slander.

The evidence in the case was placed in the box, admitted their prank, but asserted that it had been carried out with Herr Laurentowski's consent. They were, moreover, not drunk, but only in "high spirits." Herr Laurentowski said the debt on the extent of \$400, which he had not been able to pay; and they had offered to release him from his obligation if he would allow them to play the barber. To this, they averred, he consented, but, in a burst of combined remorse and generosity, he prevailed on him to accept "damages" of \$17.50.

The evidence at the trial having substantiated the defendants' statements, the case was decided in their favor.

GALLANTS OF TOWN FIGHT WITH SHOW

Jealousy Causes Feud in Fair-
field, Ill., and One Man Is
Dead, One Dying and a
Third Is Seriously Injured

Fairfield, Ill., June 18.—As a result of a feud between certain young men of this city and members of the band in a theatrical company showing here, a Charles L. Leininger is dead with a bullet in the chest. Frank McCullough is dying with a sun shot wound in his abdomen, and Richard Sloan is shot through the thigh. Herbert Pinnick, eighteen years old, of the show company, is in jail.

Male members of the company had been paying court to some young ladies here against the protest of certain local gallants. Last week Pinnick was assaulted by several young men, and he hereafter will be in jail. Pinnick last night, three pistol shots rang out and Dr. Leininger fell dead. Pinnick telephoned to the sheriff to come and arrest him.

URGEE DEEPENING
OF WELLAND CANAL

Toronto, Ont., June 18.—At a meeting in the City Hall yesterday at which representatives of the Boards of Trade of Toronto, Hamilton, Kingston and St. Catharines, were present together with representatives of the Dominion Marine Association, the Canadian Manufacturers' Association and members of the Toronto Council, a resolution was passed calling for the formation of a permanent organization of municipalities, Boards of Trade and other public bodies to effect the deepening of the Welland canal.

A joint deputation from this organization will wait on the government to press early action in this direction. The organization is to be known as the Great Lakes and St. Lawrence Navigation Improvement Association.

SYNOD OF HURON
FOR CHURCH UNITY

London, Ont., June 18.—That this Synod desires to express its satisfaction with the General Synod in authorizing a renewal of negotiations with other Christian communities for the furtherance of Christian unity, and it hopes that no efforts will be spared to bring about such practical results.

The above resolution which was introduced by His Honor Judge Erma-tiger of St. Thomas, at yesterday's session of the Synod of Huron was adopted by a practically unanimous vote.

Cement Sidewalks for Nanaimo

Nanaimo, June 18.—At the City Council meeting on Monday night another bylaw was passed providing for more cement sidewalks throughout the city. Miles of these permanent walks were constructed last summer and with the many more old walks that are to give way this summer to the modernized walks the appearance of the city will be much improved.

THE NEWMARI
CANAL CAUS
TROUBLE

Mr. Aylesworth Under F
Connection With
Ditch From Lake Sim
Newmarket

AND OBSERVATIONS
ON MILITIA DEPART

Mail Correspondence.

Ottawa, June 11.—The principal event of the week has been the way in which Mr. Aylesworth came under fire once more. It is in connection with the New Canal. It has been absolutely all along that this expenditure will run into nearly a million was nothing but a mere bribe bribe for only one constituent canal will be only 13 miles long will run from Lake Simcoe to the market, the principal town in the north of Ontario. The canal water is insufficient, and even canal were not foredoomed to failure. It would present the spectacle of million dollars being spent on large transportation to a town of inhabitants which has only 15,000. It is of any importance which the additional route. The investigation shows that the extra-ordinarily gross. During the election the right of the canal was purchased from voters who it was nothing but a mere bribe for only one constituent canal will be only 13 miles long will run from Lake Simcoe to the market, the principal town in the north of Ontario. The canal water is insufficient, and even canal were not foredoomed to failure. It would present the spectacle of million dollars being spent on large transportation to a town of inhabitants which has only 15,000. It is of any importance which the additional route.
