

AROUND THE WORLD.

The reform club in London is made up of 1400 members, who pay \$50 each yearly dues. The income from subscriptions and debentures is \$80,000 a year.

London Roosevelt has offered the Duke of Hamilton one million sterling for the island of Arran, on which Hamilton Palace is situated, but the duke declines to sell.

The Prussian government has selected Aiken, S. C., as one of the stations for the observation of the transit of Venus in December next, and the members of the expedition from the royal observatory in Berlin are expected to arrive there about the end of October.

The Radicals of 400 tons, the new steam yacht of Mr. Pearce of Glasgow, is said to be the finest vessel of her class ever built. It is rumored that James Gordon Bennett has challenged Mr. Pearce to run against his new steam yacht, the Nemousi, and that the race will take place in a few weeks.

The British Medical Journal says that a case of cholera was reported accidentally in a room adjoining the theatre, but almost immediately the first discharges of actual cholera were found under the proscenium, or in the leaves, dead. The leaves are said to give out a property deadly to insects.

Great difficulty is felt in organizing the new Irish criminal investigation department. Respectable Irishmen won't join the force, and Englishmen are useless by their accent alone. An attempt is being made to get Irish detectives in England to go to Ireland for very high pay if the treasury will give it.

Mr. Mary Bebe was the Josephine in the Ideal Opera company's performance of Pinocchio. Eighteen months ago she suddenly disappeared from the stage, the reason being that she had married Richard G. Haskell of Boston. It is rumored that she will reappear in the fall, having separated from her husband.

The great California millionaire don't run to family. Leonard Stratford has but one child, a boy of 13. Flood has not a single surviving specimen, of 25, and a daughter, a fine young lady. Mrs. Mackey has a daughter, Miss Bruce, by her first husband, and two sons, who are her boys, by Mr. Mackey.

A railroad company bought some land adjoining its track at Meriden, Conn., and the seller agreed to remove a house, barn and shed within a specified time. He failed to do so. Cables were then fastened round the buildings and attached to locomotives, and in half an hour the structures were speedily jagged off.

Miss Jessie Green of New Orleans, La., daughter of Protestant Episcopal parents, embraced the Jewish faith, and was married to Isaac Finkel, a Hebrew, that city on the 14th inst. Shortly before her public declaration of her change of faith they were married by a rabbi, and after that they were united by the Jewish rite.

Asahel, the home of Henry Clay, has come back into the possession of his family, having been purchased a few days ago by Major Henry Clay McDowell, who married the daughter of Col. Henry Clay of Bogota Vista fame, a granddaughter of the statesman. Asahel, fifteen years ago, was purchased by the Lexington and a site for an agricultural college, which proved an unsuccessful project.

Mr. Lambert of Beau Parv, Ireland, one of whose daughters is maid of honor to Queen Victoria, has had nine daughters, of whom eight survive. Lord Alfred Paget, clerk marshal to the queen, has eight daughters, all unmarried. There is a prevalent feeling in England to-day that vegetative nurseries must soon come into vogue. The queen meanwhile shows her sympathy of heart toward the querulous, but mainly of honor rarely marry.

From the London Standard.

Other twenty-five physicians and surgeons have been connected themselves with the French army, in finding an international throat and lung insurrection, which has been long needed in the Dominion of Canada, and the offices are 75 Yonge street, Toronto, and 18 Phillips square, Montreal, where specialists can obtain free advice from the surgeon and use of the international throat and lung insurrection, which is recognized in all leading hospitals. It is the only means of curing catarrh, catarrhal diseases, bronchitis, asthma and all throat and lung diseases. Persons unable to visit the institute can be successfully treated by letter. Consultation free. Call or write to the international throat and lung insurrection, 75 Yonge street, Toronto, 18 Phillips square, Montreal.

TO ALL STRIKERS.—Sisters would be well to consider Guinness's liberal offer before going elsewhere. There is no sympathy with the present movement, and no show that they are free to supply from their own stores. The largest values, any goods strikers need at actual wholesale prices, which they will guarantee in 25 per cent below the retail price. We say Guinness's immense boot and shoe emporium is at 215 Yonge street, three doors south of Albion.
