THE LIVE STOCK MARKET.

HE ALL TON ING DRIVEN TO MONTREAL.

The account of Poor and Insufficient Market Accommedation—Wheat Sinking in Chicago—Local and Foreign Stocks—Boney—Canadism Oil histerests—Bariety—Bome members of the Markets and Health Committee propose to get rid of the present west an cattle yards difficulty by adding two acres of land, owned by the city, and lying beside the proposition will cost a good deal of money and trouble, and would not have the desired effect. The present leaseholder, who has the land for 7 years yet, is not likely to give it up without compensation, and new buildings would cost money. The market would not be wany means large anough with this addition. The live stock trade of Toronto in the past has been hampered and confined to small compass on account of has ufficient accommodation. Toronto should be the distributor for the whole of the western and northern part of the Province, and if an ixtensive, well equipped market were established here very few to dis would pass this city for Montreal. If the trade is to be encouraged and developed to its full extent a large site on either the sast or west side of the city, convenient to the railway lines, should be secured, and proper buildings and pens put up. The sale of the present land would bring in sufficient funds to buy a larger tract on the cutskirts of the city. The establishing of a new market would no doubt cost a considerable amount, but the value to the faily of the city. The stablishing of a new market would no doubt cost a considerable amount, but the value to the city convenient to the railway lines, should be secured, and proper buildings and pens put up. The sale of the present land would bring in sufficient funds to buy a larger tract on the cutskirts of the city. The establishing of a new market would no doubt cost a considerable with the stock trade would be great. The live tock trade would be great to the cutskirts of the city, where it is rightfully owned. The live the city of the city

Talephone 1319. Replanade near Bay-St. 135
and a large part of the export business now
transacted in Montreal would be transferred
to this city, where it is rightfully owned. The
city had the chance three years ago to purchase
an excellent site for the market from Mr. John
Mallon. Twenty-one acres at West Toronto
Junction was offered at a figure which would
not have exceeded \$20,000, but it was not taken.
The same property could not be bought now
for less than \$50,000. The longer the city delars in purchasing a proper site the more such
a site will cost. Another suggestion: Should
there not be an abattoir built in connection
with the cattle market, where all the slaughtering of stock for city use should take place?
Inspectors could be appointed to see that all
stock staughtered is in a fit condition to be
used as food, and wholesome meats for city use
would thus be ensured. The Markets and
Health Committee have an important matter
to deal with, and should deal with it in a way
so as to prevent any recurrence of dissatisfaction.
