EPPS'S COCOA

BREAKFAST "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Traders, Manufacturers and Owners of Weighta. Measures and Weighing Machines generally are specially requested to read carefully the following instructions and act accordingly:

1. The Weights and Measures Act provides for a regular biennial inspection of all Weights and Measures used for trade purposes, as well as for irrogular inspections of the same, which may be made at any time when deemed necessary by the inspector, and it also imposes a heavy penalty on any trader or other person who wilfully obstructs or impedes an inspector or assistant inspector in the performance of his duty under said Act, or who retuses to produce the whole of his weights and measures for fispection when called upon to do so by an inspecting officer.

2. Every Trader, Manufacturer and Owner of Weights, Measures and Weighting Machines when paying moneys to Inspectors or Assistant Inspectors of Weights and Measures for verification fees is entitled to, and is specially requested to, demand from the officer who makes the inspection an official certificate ("Form 0, 6" with the words "Original for the Trader" printed at the head thereof) properly filled out and stamped, and also at the same time to carefully ascertain whether or not the stamps attached to such certificate represent exactly the value the amount of cash paid. Traders are requested to bear in mind that certificates of verification are of no value whatever unless stamps covering the full amount of fees charged are attached. that certificates of verification are of no value whatever unless stamps covering the full amount of fees charged are attached.

3. O ners and holders of these official certificates are specially requested to keep them carefully for two years, and in order to secure their safe keeping it would be advisable to placard them in their places of business in the manner in which ordinary license certificates are done, for it must be distinctly understood that all traders who are unable to produce their properly stamped certificates when asked to do so by an inspector or assistant inspector may, in all probability, have to pay over again their verification fees.
