Is not yet loud, but deep. Labor is allowing itself to be sidetracked by political, chicanery. Plenty of work with good pay and labor is contented. Capital is essential to this end, and as a factor to the prosperity of labor is not to be railed at. Mr. McGuire said some excellent things before the U. B. of Carpenters. One of his sayings, viz.: "Feudal lords have hearts while our money kings have not," is only a half truth. Our money aristocrats have hearts, but with the help of our legislators they put their money where no drafts can be made upon their feelings in its application. For instance, creatures of legislative creation, joint stock companies, that have neither souls to be saved or bodies to be damned, are doing more to crush out the life blood of the nation than for any lasting benefit they effect, while labor and her products only go to pay the debentures they by act of Parliament are permitted to foist upon the people. Hence it is that with each decade our country becomes poorer by reason of debt, while she is being depleted of her natural wealth in forest, field and mine. Hence it is that a man in Canada with \$50,000 is a fool to embark in any private enterprise of commerce when by creating bank, building society and joint stock ventures he can obtain his 55 per cent, profit secured by act of Parliament. When Mr. McGuire and any of the U.B.C. require other information and (on a much less percentage than the above) the essentials of a comfortable home, in the line of furniture, call on
