IT OPENS NEXT TUESDAY.

The Grand Trunk Railway Company i cutting rates to a very low figure during the time the Toronto Industrial Exhibition is in progress. From September 5th to the 17th a single rate for the double journey will be the fare, but during the second week a further cut is made on the 10th, 11th and 13th of September. The rates for the double journey are as follows from the following places: Sherbrooke, \$8,90; Richmond, \$8,40; Montreal, \$7, Quebec, \$1,05; St. John Montreal, \$1,05; Quebec, \$1,05; the fare, but during the second week a fur-ther cut is made on the 10th, 11th and 12th

Sept. for Guelph and all Intermentate subtions.

The local trains to the exhibition grounds from the city will be numerous. All the attoribant trains to Mimico will stop at the grounds, and all trains between York and Weston will stop there also. On the Humber loop of the belt line all trains will stop at the grounds, and on the Yonge-street loop they will stop at Parkdale. Besides, several additional trains will run from Yonge-street Station, North Toronto, direct to the exhibition grounds, and three trains per day to and from Hamilton will also stop there.

The Victoria Park Steamboat Company have arranged to run their boats between the city and exhibition grounds during the fair. They will give a 15 minute service each way.

LETTERS DROM THE PROPLE.

Iron va Wood Poles.

Editor world: The King-street evening journal should remember that scurrility is not argument. The public are no more not argument. The public are no more necessed in the whiskers on the alderman's face than in the spavins on the legs of the journalist who abuses him—both may be freaks of nature. What the citizens want is information as to the best system of supports for trolley wires. There is more or less danger from iron poles, and the question arises, who would be responsible for accidents that; will occur? The city who orders their erection or the company who puts them up under protest. C. F. G.

Editor World: Allow me to make a sug-guestion in the matter of wooden or iron poles for the trolley system. As I understand the matter, the people of Toronto and stand the matter, the people of Poronno and the merchants, in particular, object to any kind of poles being erected. Why not, then, have the wire which supports the trolley wire carried and fastened to the brick walls of the buildings on either side of the street? This would leave a clear street as regards the car system and would not in any way injure the building. Should a merchant object to have a wire fastened to his building, then a pole would of necessity be erected at his door.

Toronto, Aug. 27.

Work for Workingmen.

Editor World: Could you inform the

Editor World: Could you inform the public through your valuable paper what public through your valuable paper action is being taken in reference to harder's Bay improvement. There is going to be a large number of men idle after exhibition buildings are finished, also a large number will be left without employment when the city street contracts are shut down in the falt. It is now over six months since this thing was to be submitted to the people to vote on. There is certainly something wrong with our City Council that they don't push this work and have it submitted to the people at once and give poor working people a chance to live in this city and support their families.

West End.

The Mail and Elgin Myers.

Editor World: Every few days The
Mail publishes a letter having reference to
the dismissal of Elgin Myers, the latest appearing in Saturday's issue, the 27th inst pearing in Saturday's issue, the 27th inst. These letters all try to create sympathy for Mr. Myers and indigation against Sir Oliver Mowat for dismissing the County Attorney. Yet I venture to say that ninety-nine out of every hundred of the Liberals of the Dominion would sustain Sir Oliver in the course he took in that matter. The only fault, if any, was in being too tardy about

Yet I venture to say that ninety-nine out of every hundred of the Liberals of the Dominion would sustain Sir Oliver in the course he took in that matter. The only fault, if any, was in being too tardy about it.

Now I should life to ask Mr. Myers what he would do if his clerk were to tell his clients, when they came to consult him, that they could do much better for themselves if they were to go to another lawyer. I suspect that within five minutes of such treachery the clerk would be turned out of the office. Yet that is exactly similar to the conduct of which Mr. Myers has been guilty.

Mr. Myers was the servant of the Queen as well as Sir Oliver, though in an inferior position: and in that capacity tried to estrange the affections of her subjects from their allegiance and transfer her dominons to a foreign power. There is no civilized government in the world that would keep its sgrwant in office who acted like that. Mr. Myers has got his deserts. He is now free to go and annex himself to paradise of free traders, the United States, with its 60 per cent, tariff. He will not be missed; but I trust will be succeeded by one who is proud and contented to be a

To Purify Ashbridge's Bay. The following letter has been sent by Secretary Bryce of the Provincial Board of Health to Mr. John Hendry, secretary Ash-

Health to Mr. John Hendry, secretary Ashbridge's Bay Property-owners' Association:

TORONTO, Aug. 29, 1892.

DEAR SIR,—In view of the facts which have been laid before this board regarding the nuisance existing at Ashbridge's Bay, and in view of the fact that the recommendations made by this board to the local board for the improvement of the condition of Ashbridge's Bay not having been carried out with the desired results, I shall be obliged if you will present to this board the views of your association with regard to the measures which shall be adopted for permanently improving the condition of this section of the city. I write now in view of the urgent necessity there is for placing our city in such a sanitary condition as will make cholera, should any appear amongst us, as little serious as the nature of the disease permits. Let me hear from you at an early date.

Mr. John McCarthy, Toronto, writes: "I can

Mr. John McCarthy, Toronto, writes: "I can unhesitatingly say that Northrop & Lyman's Vegetable Discovery is the best medicine in the world. It cured me of Heartburn that troubled me for over thirty years. During that time I tried a great many different medicines, but this wonderful medicine was the only one that took hold and rooted out the disease."

DR. PHILLIPS Late of New York City, treats all chronic and special diseases of both sexes, nervous debility, and all diseases of the urinary organs cured in a few days.

DR. PHILLIPS,
246 88 Bay-st., Toronto

DURING EXHIBITION WEEKS.

Feeling, as we do, that an exhibition building is an undesirable place in which to test the tone qualities of pianos or other musical instruments, we beg to announce to our many visiting friends that our extensive warerooms will be filled during the Exhibition with an especially well selected stock, which can be examined at leisure amidst proper acoustic and artistic surroundings.

We will not exhibit at the grounds.

Our Wareroom display will include a fine assortment of instruments by the following eminent makers:

DECKER BROS., N.Y. SOHMER, N.Y. MASON & RISCH.

A fine assortment of the following specialties will also be shown:

TRANSPOSING PIANOS. All Vocalists should examine them.

PIANOS IN ART CASES. Enamel, Satinwood, Antique Oak, Etc.

THE JANKO KEY BOARD. A subject of great interest to all students of the plane.

THE VOCALION.

We will also show a large number of slightly used Upright Planos and Organs, which we offer for sale at largely reduced prices in order to make room for fall stock.

It is a well-known fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although Electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatist than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces.

Electricity, as applied by the Owen Electric Belt and Suspensory, will most assuredly do so. It is the only known force or power that will supply what is lacking, namely, nerve force or power, impart tone and vigor to the organs and arouse to heaithy action the whole nervous system. It will positively cure Nervous Prostration, Rheumatism, Sciatics, Kidney Disease, Lumbago and Lame Back and Dyspensia

Beware of imitations and the worthless cheap so-called Electric Belts advertised by some concerns and peddled through the country. They are electric in name only, worthless as a curative power and dear at any price. Our trade mark is the portrait of Dr. Owen embossed in gold upon every Belt and appliance manufactured by us.

Send for Catalogue. Mailed (sealed) Free. THE OWEN ELECTRIC BELT CO., 49 King-street West, Toronto. GEO. C. PATTERSON, Manager
