At a sitting of the Ontario Drainage Court held in Sarnia last month before Drainage Referee Henderson, of Ottawa, the following case came up; Carruthers vs. Township of Bosanquet,—Appeal against drainage scheme affecting plaintiff's lands. Adjourned till next sittings of the drainage court at Sarnia. The Referee expressed the opinion that the engineer should reconsider the report and provide for a drain across the flats on appellant's property, it not being in the referee's opinion a proper case for compensation. Now, there is an organization in Canada exactly suited to the requirements of such men, and its existence should be brought clearly to the notice of every young man in Canada.

reinforce as units that famous regiment, the Princess Patricias Canadian Light Infantry.

These companies are composed of men from the universities of Canada, the friends of such men, and, broadly speaking, from men of that type.

It must be clearly understood that they are not all university men, for there are bank clerks, lawyers, architects, engineers, ranchers and others, and it has been found that such men pull well together and enjoy military life to the full. If the existence of such a force was known throughout the length and breadth of Canada, there would be no difficulty in recrutting a full company within a week.

The First University Company, under the command of an excellent leader, Captain Gregor Barclay, has been for some time in England. An eminent military authority has declared this to be the finest company which has ever sailed from Canada.

The Second University Company was composed of men of a splendid type and was embarked recently at Montreal.

The Third Universities Company (and note that the plural is deliberate) is recruiting with fair rapidity and there is every hope that it will reach the high mark of success attained by the first two companies.

The Third Universities Company (and mote that the plural is deliberate) is recorded in the proposition of the first two companies.

The beautiful home of John Robertson, second line, Plympton, was the scene of a happy event on Saturday, when his youngest daughter, Miss Eunice, became the bride of Russell Sheppard, at 12.30. Only the immediate friends of the frmily gathered in the spacious parlor, to witness the beautiful ceremony. The bride wore her travelling suit, and was unattended. Rev. J. McGillivray, of Petrolea Presbyterian church, tied the nuptial knot. After congratulations and a dainty repast, the bridal party motored to Sarnia, embarking aboard the S. S. Noronic for a tour through the Western provinces, which will extend until fall. Heartiest wishes follow the bride, who is popular with a large circle of friends in this district.

The bride travelled in a handsome moss green silk crepe de chene, with white sailor hat. every hope that it will reach the high mark of success attained by the first two companies.

There is certainly no difficulty in obtaining officers, but it is harder to find picked men for Sergeant-Major, Company Quartermaster-Sergeant, Platoon Sergeants and Section Leaders, on whom largely rests the success of the Company. Indeed, Canada needs chiefly a training school for non-commissioned officers.

The general principle is followed of giving commissions to well-qualified men from the university or from the district which furnishes the recruits.

The West has certainly been a great recruiting ground for the Universities Companies and the men have proved themselves good soldiers, well-disciplined and efficient, with fine physique. It is hoped that the Maritime Provinces will rival the West in furnishing recruits. Indeed, in the Second Company men, doubtless Canadians, came to join from Oklahoma, Arizona and Missouri.

A recruit can be examined medically and attested in his own district, and transportation will be provided to Montreal.

which I mentioned the lact that the cherry pie was at one time considered the supreme test of a housewife, or rather, the test by which it might be discovered whether a girl was competent to be a housewife, has brought me a good story from Dr. Hugh MacCallum, of London. According to him the cherry pie plays a much wider part than I suggested in the life of the New England States. He says:

"At a medical banquet which I once attended our great Dr. Osler, of Oxford, stated that Dr. Weir Mitchell, of Philadelphia, had once put his culture to the final test. Dr. Mitchell, who was present nodded gravely.

"He gave me a piece of cherry pie, to eat and watched me while I ate it."

"Once more Dr. Mitchell nodded.

Model Military Camp

Four weeks from to-day the starter's In view of the fact that so many of our Canadian soldiers are fighting on the battlefields of Flanders, the model military camp, which will be one of the specials at the Canadian National Exhibition this year, should attract thousands of visitors, a great many of whom, no doubt, have sons or brothers at the front. In this camp will be seen a detatchment of the Royal Canadian Dragoons, artillery, Royal Canadian Engineers, Royal Canadian Regiment, as well as machine guns and armored cars. The work of the A. M. C. Transportation Corps, A. S. C. and field kitchen will be an interesting feature. The camp, which will vividly portray life under active service conditions, showing even trench digging and the landing of hydroplanes with headquarters staff and field telegraph complete, will be situated west of the Transportation Building. In view of the fact that so many of our "go" will be heard at the Port Huron Driving Park and the horses will be off for another season. August 17, 18, 19 and 20 are the dates.
