

PLATE XII.

(Mason. Throwing-sticks.)

- FIG. 15. Nunivak type. The characteristic marks are the absence of any cavity for the index finger, the nicely-fitting handle, the disposition of the finger-pegs, and the delicate point on the ivory spur at the bottom of the shaft groove. Collected by W. H. Dall, at Nunivak Island, in 1874. Museum number, 16239. (This specimen is left-handed.)
