

THE MASON & RISCH organization maintains the character given to it by its founders as "Makers of high-grade Pianos only." From the earliest beginnings, the most exacting people bought MASON & RISCH Pianos for that reason.

They do so yet! They know that a MASON & RISCH Piano is an ingenious composition of all elements which have given the instrument of our make the reputation of being "The Best Piano Built."

The same scientific manufacture that has given the MASON & RISCH Piano its world-wide reputation, is developed in the highest degree in the MASON & RISCH Player-Piano, an instrument which has won the enthusiastic support of eminent musicians and musical authorities on all sides.

Both instruments possess so many excellent features that you cannot afford to disregard them when you recommend a Piano or Player-Piano to give life-time satisfaction.
