

Ten per cent. of the cases treated died, the causes being as follows :

Nephritis, two deaths ; ulcerated condition of the throat with involvement of the glands and pyæmia, five deaths ; diphtheria, one death ; pneumonia, one death ; and one death due apparently to the intensity of the poison.

All but one death have occurred among young children, though fully 25 per cent. of the patients have been adults.

The adult who died was a chronic drunkard.

Tabulation of Cases.

| | |
|------------------------|-----------|
| Mild | 40 |
| Moderately severe..... | 29 |
| Severe | 31 |
| | <hr/> 100 |

Complications.
