Electro-Therapeutic Institution,

For the treatment of Nervous, Chronic, and Obsolete Diseases, not cured by other kinds of treatment (nor by the unskilled and inexperienced). Diseases that follow nervous exhaustion (a lack of vitality or nerve force) from various causes, as over brain work, over physical work, excesses—abnormal secretions and exertions producing various phases of disease and suffering in mind and body.

Those who wish the treatment at home may have it by ordering one of Prof. Vernoy's Improved Family Batteries, and follow the instructions given with it, which are plain and simple.

The cures made with these Improved Batteries scientifically used, according to the new system practiced by Prof. Vernoy, are not limited to any particular class of diseases. It is wonderful to see how such radical changes are so quietly and agreeably made. Acute diseases are often cured as by magic in one or two applications.

Female diseases, hopeless cases by other means, displacements and other weaknesses—nervous debility (abnormal evacuations in either sex) permanently cured after years of suffering with other kinds of treatment. Neuralgia, Rheumatism, Catarrh, head, lung, heart, liver, kidney and other organic troubles and derangements of the system changed to a healthy state as readily as the hard frozen earth is melted by the genial rays of the sun by Nature's means, in harmony with her fixed laws. Bad cases thus cured will inform you how marvellous the cure is. Address given if you wish it. See the *Electric Age* with testimonials and references like the following:—

Rev. G. M. Milligan, pastor of Old St. Andrew's Presbyterian Church, Toronto, says:—

PROF. VERNY.

Dear Sir,—By taking your treatment last fall I am happy to tell you that I began last winter's work well. I have not slept so soundly for years as I have done since the treatment, and never have I done my work with such comfort and energy as during the past year. The tonic and alternative effects of the electrical applications have been of so great benefit to me that I believe every person, whatever his health may be, would find himself benefited by a greater or less use of electricity. It is indispensable to the health of the nerves.

Very gratefully and truly yours,  
GEO. M. MILLIGAN.
