BOOTS AND SHORE.—The situation is not essentially changed. The factories are still actively employed on the remnant of the season's orders for general fall goods, and letter orders from country dealers for heavy work, especially men's coarse boots, continue to come forward freely. Stocks of heavy boots in the country seem to be quite light, and travellers are now preparing to start out on their sorting-up trips about the middle of this

month. FURS, -The trade continues very busy on orders for manufactured furs, and will probably advance their prices if the demand continues to be pressing, as the advance of Coneys and nearly all classes of goods, as well as the scarcity of labor, will likely render an advance in values here necessary. Country merchants have not responded to the usually high prices asked for buffalo robes, especially for low grade goods,—owing to the extreme scarcity of the article, as noted in our last report,—and wholesale dealers are carrying their stocks for want of buyers. No definite quotations can be given for raw furs until some time next month, when they commence to come forward. It is thought that minks and muskrats will have to be brought at prices below those of last year, but that skunk will be required for local use, at about last years rates. Muskrat is quoted very low in Europe; white beaver is selling freely at high

WHOLESALE PROVISION MARKET.

The market displays little animation, and outside of jobbing enquiry nothing of impor-tance is doing. The butter trade bears a good aspect, and were it not for accumulations of medium qualities and summer makes, would lash the physician ordered the punishment to be stopped, and it is said he was chained to the wall of his cell for the next twenty-four to the next twenty-four the next twenty-four twenty-four

FARMERS' MARKET PRICES-Oct. 12. The attendance at these markets to-day was rather below the average in consequence of rain showers, still dealers were kept fairly employed. Apples are now the principal fruit dealt in, tomatoes, grapes, peaches and pears being much less numerous than they have been. Blueberries are practically out of the market at last, after a heavy season's trade, particularly in Saguenays. Fresh print butter was held at full rates quoted and sold readily, while there was also a good enquiry for eggs in farmer's baskets. Onions of fine quality are wanted for export to the States, but farmers are said to be checking the movement by asking advanced prices.

WIT AND HUMOR.

Nonsense.-Sense that happens to differ from our own.

"I like your impudence,' as a pretty girl said when her beau kissed her. The man who fell into a barrel of whiskey

said he was "depressed in spirits." The horseshoe does not bring good luck said a rustic, when the horse applies it. Why is a fly one of the tallest of insects? Because he stands over six feet without shoes

or stockings. Some people will commit crime with one foot in the grave. A woman 100 years old is reported to be learning to play the accordeon in Wales.

A joung lady surprised the gentlemanly clerk by offering him fifty cents in payment for a dollar purchase. "It amounts to a dollar if you please," said the gentlemanly clerk. "I know it does," was the answer " but papa is only paying fifty cents on the dollar now."
