

THE SECRET

of the success of the **Safford Boiler** is plainly evidenced by a glance at this interior view. If you are still like the "gentleman from Missouri," we are here to show you.

The deep Fire Pot means added heating power, fuel economy, thoroughly burnt fuel, less attention.

The Cast Iron Nipple connection will last as long as the Boiler. No Rubber Gaskets to replace every few years

The absolutely even metal lines assures rapidity of circulation.

The wide flue openings and spaces lessen soot deposits, allow ease in cleaning and accelerates circulation in the upper sections as a result of higher temperatures in the gases.

Safford Boilers and Radiators

are absolutely guaranteed.
