

Conspicuous Nose Pores

How to reduce them

COMPLEXIONS otherwise flawless are often ruined by conspicuous nose pores. The pores of the face are not as fine as on other parts of the body. *On the nose especially*, there are more fat glands than elsewhere and there is more activity of the pores. These pores, if not properly stimulated and kept free from dirt, clog up and become enlarged.

To reduce them: Wring a soft cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in *very gently* a fresh lather of Woodbury's. Repeat this hot water and lather application several times, *stopping at once if your nose feels sensitive*. Then finish by rubbing the nose for thirty seconds with a piece of ice.

Notice the improvement the very first treatment makes—a promise of what the steady use of Woodbury's Facial Soap will do. But do not expect to change completely in a week a condition resulting from long-continued exposure and neglect. Use this treatment persistently. It will gradually reduce the enlarged pores and make them inconspicuous.
