

The taking of baleen whales by whale catchers attached to factory ships shall be illegal in any waters south of 40° South Latitude after the date so determined.

- (e) Notification shall be given in accordance with the provisions of Article VII of the Convention of each factory ship intending to engage in whaling operations in any waters south of 40° South Latitude.

9. It is forbidden to take or kill any blue, fin, sei, humpback, or sperm whales below the following lengths:

- | | |
|--------------------------|-----------------------|
| (a) blue whales..... | 70 feet (21.3 meters) |
| (b) fin whales..... | 55 feet (16.8 meters) |
| (c) sei whales..... | 40 feet (12.2 meters) |
| (d) humpback whales..... | 35 feet (10.7 meters) |
| (e) sperm whales..... | 35 feet (10.7 meters) |

except that blue whales of not less than 65 feet (19.8 meters), fin whales of not less than 50 feet (15.2 meters), and sei whales of not less than 35 feet (10.7 meters) in length may be taken for delivery to land stations provided that the meat of such whales is to be used for local consumption as human or animal food.

Whales must be measured when at rest on deck or platform, as accurately as possible by means of a steel tape measure fitted at the zero end with a spiked handle which can be stuck into the deck planking abreast of one end of the whale. The tape measure shall be stretched in a straight line parallel with the whale's body and read abreast the other end of the whale. The ends of the whale, for measurement purposes, shall be the point of the upper jaw and the notch between the tail flukes. Measurements, after being accurately read on the tape measure shall be logged to the nearest foot: that is to say, any whale between 75' 6" and 76' 6" shall be logged as 76', and any whale between 76' 6" and 77' 6" shall be logged as 77'. The measurement of any whale which falls on an exact half foot shall be logged at the next half foot, e.g. 76' 6" precisely, shall be logged as 77'.

10. It is forbidden to use a land station or a whale catcher attached thereto for the purpose of taking or treating baleen whales in any area or in any waters for more than six months in any period of twelve months, such period of six months to be continuous.

11. It is forbidden to use a factory ship, which has been used during a season in any waters south of 40° South Latitude for the purpose of treating baleen whales, in any other area for the same purpose within a period of one year from the termination of that season.

12. (a) All whales taken shall be delivered at the factory ship or land station and all parts of such whales shall be processed by boiling or otherwise, except the internal organs, whale bone and flippers of all whales, the meat of sperm whales and of parts of whales intended for human food or feeding animals.

(b) Complete treatment of the carcasses of "Dauhval" and of whales used as fenders will not be required in cases where the meat or bone of such whales is in bad condition.

13. The taking of whales for delivery to a factory ship shall be so regulated or restricted by the master or person in charge of the factory ship that no whale carcass (except of a whale used as a fender) shall remain in the sea for a longer period than thirty-three hours from the time of killing to the time when it is taken up on to the deck of the factory ship for treatment. All whale catchers engaged in taking whales must report by radio to the factory ship the time when each whale is caught.
