

activity in the autumn of 1980.

#### PM Group

Despite a small reduction in the percentage of women in this group, the distribution of women improved and the number increased by two.

#### TECHNICAL CATEGORY

The participation rate of women in this category has dropped somewhat, partially due to the departure of a woman at the GT-6 level on a CAP assignment.

#### ADMINISTRATIVE SUPPORT CATEGORY

The proportions of men and women in this category have remained approximately the same.

#### CM Group

Eight men and two women left this group during the year. As noted on page 54 it is hoped that seven women will enter the group as a result of an intra-departmental competition.

#### CR Group

The proportions in this group have changed very little. 68% of the men and 29% of the women are in the foreign service portion of the group which has in it more senior positions than the non-rotational segment.

#### OPERATIONAL CATEGORY

The proportions in this category have remained stable although there are now nine fewer men in the category.
