

*National Housing Act*

which I think I quoted once before and which I think he may remember. The lines are:

He praises with enthusiastic tone  
All centuries but this, and every country but his  
own.

**Mr. Fleming:** Sing it.

**Mr. Winters:** The hon. member for New Westminster suggested that we do everything we can to find ways of building better and cheaper houses. With that I am fully in accord. We have already set up committees to study that particular problem and are in the process now of establishing an advisory committee of citizens from across the whole country, who will give us the benefit of their advice based on local conditions, in an endeavour to use Canadian materials and resources to the best advantage in building cheaper houses and better houses, having in mind as well the very serious fire problem that he raised.

I wish to thank the hon. member for Hamilton South and the hon. member for Vancouver South for the very splendid and constructive contributions they made to the debate.

Motion agreed to, bill read the second time and the house went into committee thereon, Mr. Applewhaite in the chair.

On clause 1—“*Home extension loan*”.

Progress reported.

**BUSINESS OF THE HOUSE**

**Mr. Harris:** Mr. Speaker, tomorrow we shall take the estimates of public works and agriculture, and on Monday our supply motion.

It being fifteen minutes after ten o'clock the house adjourned, without question put, pursuant to standing order.
