The figures purport to have been drawn by Abbot, and Mr. Scudder says were copied from an unpublished plate of Abbot's. The description in Bd.-Lee. is made up from their own plate, not from Abbot's. And no matter what the latter was, by the plate and description in Bd.-Lee. the species must stand or fall. An unpublished plate carries no authority, and it is not possible to tell from Bd.-Lee. what insect is intended.
