It was high time that there should be a new edition of Dr. Jamieson's Scotch Dictionary. If only because old English has been carefully studied there was need of a new edition of this Dictionary; and the enterprising publisher of those volumes has rendered an important service to a large class of readers.—*The Times*.

JAMIESON'S SCOTTISH DICTIONARY.

A NEW EDITION,

CAREFULLY REVISED AND COLLATED, WITH THE ENTIRE SUPPLEMENT INCORPORATED.

BY

JOHN LONGMUIR, A.M., LL.D., AND D. DONALDSON, F.E.I.S.

IN FOUR VOLUMES.

It is just seventy years since the first edition of JAMIESON'S SCOTTISH DICTIONARY was published in Edinburgh. Twenty years previously, a learned Iclander, Grim Thorkelin, Professor of Antiquities at Copenhagen, who, during a visit to Scotland, recognised in colloquial conversation many purely Gothic terms, had urged JAMIESON, then a nonconformist minister at Forfar, to note down remarkable and uncouth words. The task proved a thoroughly congenial one. It was undertaken by the right man and at the right time; the notes grew into the work which is now proposed to re-issue, and the publication proved a marvellous success. Dr. JAMIESON'S Dictionary has had neither rival nor successor. He accomplished his undertaking so thoroughly and so well that the work may be said to have furnished the basis and the substance of every extant Scottish Dictionary or Glossary.

The Dictionary is no dry collection of words. It is rich in humour and antiquarian lore, and abounds in happy illustrations of old manners and customs.

Believing that every patriotic Scotchman, as well as all who prize aids to the unlocking of the treasures of old Scottish Literature, would hail the reproduction of a work which at present is so scarce that it can be procured by book-hunters only with difficulty, the publisher has issued a limited number of copies. This work is a reprint of the first edition, with the interesting quotations in full, and the SUPPLEMENT. The complete Supplement, however, is *incorporated in the body of the work*.

The work is comprised in four large Quarto volumes of about 700 pages each, and is printed on a specially prepared superfine laid paper, from new type. The cost is 37s. 6d. per volume. Large Paper, 70s. per volume.
