It is Worthy of Note

that the

MASON & RISCH

was the only PIANO used in the WINNIPEG THEATRE during one of the most Successful Theatre Seasons ever closed in Winnipeg.

During the last six months we have talked a lot about Winnipeg's Big Piano Store. In that time we have practically revolutioned the Piano Business in this City. We have sold Pianos at a lower price than high grade Pianos have ever been sold in this country. We have done a lot of advertising with the result that we have made an enormous amount of sales; we have done more, we have gained the confidence of the public by doing just as we advertised. If we advertised that we would sell two \$400 Pianos for \$250 each we sold just two and no more. We sell to the people direct from the factory, and can sell Pianos retail as low as other houses wholesale the same grade at, and still make a profit. There is no chance of people who buy Pianos from us getting anything but what they ask for. Every Piano is sold in the grade in which it belongs. We tell you just what it is and sell you anything you want. We carry 10 different makes and over 25 different styles.

Call and get Our Prices and Terms.
