

The Canvasser for the Dalhousie "Million" Fund His Book

DALHOUSIE UNIVERSITY has a long record of useful public service to commend it to the people of this Dominion. It was founded, among a people who realized the necessity and value of education, to fill a great need and satisfy a proper demand for higher education. It was modelled "on the same plan and principle as that in Edinburgh," **"open to all occupations and sects of religion, restricted to such branches only as are applicable to our present state and HAVING POWER TO EXPAND WITH THE GROWTH AND IMPROVEMENT OF OUR SOCIETY."** It has been maintained by a people who were sincerely appreciative of the service it rendered and the advantages it brought to them and their children. It has had a long list of distinguished graduates and teachers who have made material contributions to the upbuilding of the Dominion. It has abundantly justified the faith of its founders. After its foundation succeeding generations regarded Dalhousie as a heritage to be cared for, improved and passed along so that it might serve future generations as it served them. Due to the fostering care and financial sacrifices of our forefathers, Dalhousie expanded to keep pace with the needs and "with the growth and improvement of our society." Now it is a well rounded out University and it is the only University in the Maritime Provinces which gives complete courses of instruction not only in Arts and Science but as well in Law, Medicine, Dentistry and
