

GERMANY DISCLAIMS DESIRE TO INTERFERE

Americans Can Take Monroe Doctrine Out and Dust It if They Choose.

COLOGNE, March 10.—The Cologne Gazette to-day prints an inspired despatch from Berlin dealing with the American Government's concentration of troops along the Mexican frontier and warships in the Gulf of Mexico and the Pacific Ocean.

"No news has reached Berlin," the despatch says, "indicating that the persons or property of German citizens are endangered in Mexico; hence the German Government has had no occasion to discuss what measures for their protection are necessary."

"If the trouble breaks out in the Mexican ports and it is seen that the Mexican authorities are unable to protect German citizens, Germany would exercise a clear right, which has ever been unreservedly recognized by the United States, to send warships thither. But this would be far different from mixing in the international affairs of Mexico."

"Even if the present troubles in Mexico lead to a complete revolution and even if the United States is invited to annex that country, or to undertake its annexation without the consent of the Mexican authorities, Germany certainly would not let Don Quixote and whip out the rapier."

"How the American States agree or disagree is their own affair. No danger threatens the Monroe Doctrine from our quarter. It makes no difference to us whether it sleeps in the archives or is taken out and dusted."

The above despatch was called forth as an answer to insinuations of the English press, that Germany was watching for an opportunity to interfere in Mexico.

PICTURE FILMS TO BE CENSURED

of the children as to their treatment in their homes and the conditions which will best enable the children to attain a normal degree of intelligence and education. Subject to the approval of the minister, the board may provide a special course of study for children attending the special classes.

Special grants will be made under regulations to be issued by the department of education.

Hon. Dr. Parnell announced that the investigation by F. W. Merchant into the bilingual schools had not yet been concluded and that no report would ever have been received from him.

Report was expected after the investigation was concluded.

Hon. Mr. MacKay Impatient.

Hon. A. G. MacKay got sharply rattled over the knuckles for declaring that the time had arrived when he should be brought down to earth.

Sir James Whitney reminded the opposition leader that under the former government a bill was never produced until after the lapse of at least a month after it was asked for, unless it suited the desires of the minister concerned.

Hearst on Reciprocity.

W. H. Hearst, Sault Ste. Marie (Conn.), resumed the debate on the anti-reciprocity resolution. He was wonder-struck at the great and sudden admiration now being expressed by because in different countries reciprocity is favored reciprocity. In view of the success of the saw log policy in building up millions of rich settlements of Ontario, it would be injurious to throw open the province to the natural resources of the province to United States manufacturers. The saw log industries would never have arisen had it not been for the independent trade policy of the Dominion.

The agreement proposed by the Canadian government for the salvation of United States mills. If the present policy of the Dominion is continued, and for Canadians was continued by the future of the new portions of Ontario was a bright future. The anti-reciprocity bill could be a great advantage of commercial union and unrestricted reciprocity if, in this crisis, he rose

F. J. Watson & Co's List.

FARM SPECIALISTS—F. J. Watson & Co.

2 ACRES—Brampton; buildings, fruit; \$150.
