Baseball Athletics or Giants

Games To-day

Note and Comment

This is a big day for Rugby football. he Alerts of Hamilton, said to be the est team this year in the Mountain City, nake their initial appearance in Toronto, playing St. Michael's College at Rosedale, ind the all the seafs are sold out for the college game at the new stadium, every cotball fah in Toronto will have the chance to see good football. The Alerts made a clean-up at Dundas a week ago, while S.M.C. also showed their calibre; to a close game worth seeing is sure to essuit at Rosedale.

Chance to see good toothall. The Alerts made a clear that Dunds as week ago, while S.M.C. and Dunds as week ago, while S.M.C. and Dunds as week ago where the three calibres is sure to result at Resentals.

McGill and Varsity are also an even money proposition, with the chances in money proposition in the chances in money proposition will be a complete the complete the like of Ty Cobb as a ball player. A dozen times this season we have been mised to gasp at stories that the Georgia peach went all the way from first to third on a sacrifice, or an infield out, all the way from the bases on a single, footing the base guardants by his speed. The care of the complete the com

Continued From Page 1.

There has been much discussion about McGraw's choice. It has been said that the Giants might start the important series with Marquard, the southpaw, McGraw would select "Matty." He is the star who has been tried in previous important battles, and since the Giants want to win the first game, it would seem unlikely that they would shelve Mathewson, the veteran; for the experiment, Marquard.

1 want to say right here that if

was unable to play. Who will Pitch?

who will pitch? The problem was bard as one to solve to-night as the pitchers during our series, and found them to be in jam-up shape to stop the pitfering or the New York players. We had some fast men who made it a point to try, every time we got on bases to steal. You will find, by going, over the records, that we succeeded in plifering very few places. First of all, in three of the games, the Athletic pitchers did not let us get on base very often. Secondly, when we did get on, we found that the pitchers held, not get a lead sufficient to make base specially the solvent of the base and we could, not get a lead sufficient to make base specially the fans guess that if it is a closely day young Marquard the box, as his piscal would in the factor of the season's play, will be put here of, we found that the pitchers held, not get a lead sufficient to make base specially the one of the box as his piscal would in the factor of the season's play, will be put here of, the fans supervised to the base and we could, not get a lead sufficient to make base specially the more strained to the base and we could not get as a lead sufficient to make base specially the fans guess that if it is a closely day young Marquard the box, as his piscal would six to the base and we could not get a closely for the paths. There has been much discussion about the importance of winning the discussion about the importance of winning the discussion about the importance of winning the sufficient to make the paths.

There has been much discussion about the importance of winning the discussion about the importance of winning the increase of the suning the factor of the season why they should run wind on the paths.

There has been much discussion about the importance of winning the discussion and the interesting lecture was a constituted to the importance of winning the constitution of the paths.

There has been much discussion and the out of the paths.

The third is an expectation is obtained to the interesti There has been much discussion about the importance of winning the first game. Of course both managers want to get the initial victory. It gives them "an ace in the hole." However, the team which wins to-morrow will not necessarily win the world's series of 1911. The only basis for the belief that the winner of the first game is the ultimate world's champion is more or less superstition and after all superstition plays a small part with a championship baseball team.

"Who will win?" If Chief Bender pitches and he displays the form which he did in 1910 when he opposed the Cubs. I believe the Athletics will leave New York Saturday night with victory perched onto their banner.

that.

The police look for trouble, as they have been ordered to arrest the ticket scalpers. It was rumored late to-night that hundreds of counterfeit tickets were in circulation.

Betting continued practically an even thin, Many Philadelphia supporters wave odds of 10 to 9. The batting order will be:

Philadelphia, Lord, If. Oldring, cf. Collins, 2b. Baker, 2b.

Mack Hopes to Win. Connie Mack was seen in a smiling mood after dinner, with his men. "All I can say is that we are here," he said, "and here to do our best to win."
"Will Mcinnis play?"
"I can't say to-night. But it is doubt-ful."

I want to say right here that it "I can't say to-night. But it is doubt-base for the Athletics this afternoon the Athletics will be handleapped. And that despite the fact that Captain Harry Davis is a veteran who has been thru the fire and never flinched. I will explain just what I mean.

During practically the entire season, McInnis has been on first hase for the Athletics. He is an important factor in a grand infield quartet. Every play offensively and defensively, was built with "Stuffy" doing his share. Then an accident which takes him away from the team. Really, to put Davis in at this time is sort of replacement that the stime is sort of replacement. There is an error of the state of the men over said they looked to see Claude Derrick take the initial sack, but later in the evening it was stated in quarters close to the management that Harry Davis, the veteran first baseman, would take his old position if McInnis was unable to play.

Who will pitch?" The problem was as hard a one to solve to-night as the picking of to-morrow's winner. "There is the state of the

Story I gave as my opinion that the swinging type of batsmen on the Athletics should be able to hit 'Matty,' But baseball players generally agree that he has been a great pittoer, and it must be admitted that in one game, a man of his ability and reputed courage, might uppet the 'dope' of the man who knows Mathewson and his capabilities much better than I do.

There is just this much to be said from my observation, a pitching bat the between Bender and Mathewson is going to be spectacular, if both enter the fray in tip-top form. And they probably will be right, for both are twirters who will not tackle the job unless they feel consident of victory.

If Bender should not be right, Combs would probably be the second selection with Plank as third. Again I want, to say that the All-Stars tound those two fleaks ment to be in grand shape and ready to do tattle against McGraw's Giants to-norrow or any following gume.

"Ty" Says Matty Will Pitch.

There has been much discussion about McLiraw's choice, at has been said that McGraw's Giants to-norrow or any following gume.

COULD NOT DELIVER SUPPLIES A very interesting lecture was given on the coronation in the main hall of St. James' Parish House last night by Mrs. S. G. Wood. Altho she is blind, Mrs. Wood was able to describe the events as they occurred, because she has the accomplishment of using her other senses to the best advantage. In London she was a guest of the royal family in Buckingham Palace, and her descriptions of the King and Queen passing her in their coronation robes were as accurate and as vivid as the she had seen everything. livery until next year, comprise coal and similar stores. Fullerton has sup-plies for the winter, however.

Summer Hotel For Kingston Mayor Graham has received a letter from a party of Buffalo capitalists, who wish to erect a summer hotel here. The council will consider the matter.

Hitherto the board of directors have been immediately responsible for the detail work of that branch, but with the new scope of the association's activities, a metropolitan form of organization has been agreed upon as the best adapted to a large and rapidly growing city like Toronto.

Hereafter the work of the Yongestreet branch will be in charge of a committee of management composed of the following: Messrs. John Trunbull Thomas Allen, A. J. Hardy, Dr. Morley Wickett, W. N. Stock, E. Sterling Dean, David H. Gibson, R. C. Kilgour, William McTavish, Paul R. Brecken and R. G. Dingman.

BUDDHISTS IN JAPAN

Christian Church Work Retarded -Primitive Tribe of Eskimos Found on Mackenzie,

The annual meeting of the Canadian Church Missionary Society was held last evening in Wycliffe College.

Bishop Stringer gave an account of a winter trip is the mountainous regions of the Yukon.

Rev J. Cooper Robinson of Japan, speaking on "The Present Opportunity in Japan," declared that since the war Shintoist and Buddhist revivals had greatly restricted the work of the church. The Buddhists were working an almost Christian lines. The country was laid out in dioceses and parishes, and they used some portions of the Bible as coming from Buddha. Still he could report that of 75,000 Protestant converts there were 15,000 Anglicans.

ant converts there were 15,000 Anglicans.

Bishop Holmes, Lord Bishop of Athabasca, spoke of his work in the Mackenzie-River district, telling of the finding of a new tribe of Eskimos, which was still using stone axes and bows and arrows, living on raw flesh, and until sixteen months ago had never seen the face of a white man.

The following new officers were appointed: President, Dr. N. W. Hoyles, K.C.; secretary, Rev. T. R. O'Meara; treasurer, T. Mordiner; board, Hev. Canon Bryan, Archdeacon Gody, Rev. C. J. James, R. A. Sims, L. E. Skey, F. Wilkinson, T. Beverley Smith, T. H. Cotton, W. J. Southam, Dr. W. H. Griffith-Thomas, Canon R. W. E. Greene, Rev. J. R. S. Boyd, Hon. S. H. Blake, K.C., Messrs, Grant Helliwell, E. W. Trent, Wm. Wedd fr. W. T. Hillyer Boyd, W. D. Thomas, John G. Grey, Thos. Langton, Dr. Harley Smith, Herbert, Mortimer and Evelyn Macrae. Western, Ontario—Rev. Dr. Sage, Canon Richardson, Canon Dyson Hague, Canon Wade, Messrs, J. H. A. Beattie and J. K. H. Pope Eastern Ontario—Rev. Canon Edward Daniel, Rev. S. C. Noxon, O. G. Dobbs, J. O. Crisp, Messrs, Montague, Maritime Provinces — Ven. Archdeacon Armitage, Rev. R. P. Mc. Kim, Rev. G. A. Kubring, Northwest and British Columbia—Rev. Arabdeacon McKim, Rev. R. B. McElheran, C. C. Owen and A. E. O'Meara, Auditor, Samuel Trees, Medical board—Dr. F. Lem. Grasett, Dr. Thos. Millan, Dr. C. H. Thomas.

ST. ALBAN'S FUND. A committee of fifteen substantial citizens connected with the Anglican churches in the west end of the city, was organized in St. Mark's Church last night for the purpose of aiding in raising the \$300,000 required for the completion of St. Alban's Cathedral.

Bishop Sweeny, Noel Marshall and others addressed the meeting.

A committee will be organized in the east end within a few days and then the two committees will commence a vigorous campaign.

F. H. Drayton was in the chair last evening, and will be the chairman of the committee in the west end.

Royal Welsh Choir.

The Watertown News has the following to say of the Royal Moelwyn Male Choir, which appears at Massey Hall this evening: "Those present were treated to what was probably the best entertainment of the kind ever given in this city. The excellence of the choir was manifested with the first chorus, and the enthusiasm of the audience never diminished until the end of the concert. The voices are of exceptionally good quality and tremend-president of the Moose Mountain Iron ceptionally good quality and tremendous power. The audience was held almost spellbound for over two hours, and every number on the program was accorded an encore, and in some instances two. The people of Watertown will believe the saying more strongly than ever that 'every Welshman is born with a bird in his throat.'"

Thanksgiving Concert. Mr. Campbell has completed arrange-Mr. Campbell has completed arrangements for his grand popular concert in Massey Hall, on Thanksgiving night, Monday, Oct. 30. A new departure has been made in the selection of artists. No outside talent has been engaged, but arrangements have been made for the best local talent to appear, and Mr. Campbell feels confident that the standard of his popular concerts will be dard of his popular concerts will be fully maintained, notwithstanding the change. The list of artists includes: The 48th Highlanders' Band. Jessie Alexander, premier elocutionist; Mrs. Flora McIvor Craig. soprano; Miss Edith M. Parker, contraito: Mr. Don-ald C. MacGregor, baritone, with Miss Annie McKay as accompanist. The Annie McKay as accompanist. The program, it is claimed, will compare very favorably with those presented at previous concerts in Mr. Campbell's winter season popular series.

Awful. Brown with fear is frantic. His wife is filled with dread. They believe their darling son is Surely maimed or dead.

"Tear ma and pa," wrote he,
"I tried out for the football team,
And they've made an End of me!"
—Henry George Seed.

EATON'S

The Flexible and Self-Conforming

This Hat will be a revelation to the man who h not yet seen it, and is one of the John B. Stetson famous hats, is very light in weight, and absolutely refuses to break, conforms at once to the shape of any head, and comes in the medium low crown and rolling brim; is finest quality fur felt, and trimmed with silk bands and binding. Be sure and see this hat.

- Main Floor-Queen St.
