Agricultural Sub-Committee Claim There is Shortage of Men in East.

Ottawa, April 26.-The commons ommittee on agriculture met this morning to receive the report of the special sub-committee appointed on Friday last to make a report on the labor situation and more particularly the employment of labor in non-essential industries. The findings of the sub-committee were submitted by Fred Davis, member for Neepawa, Mani-

toba.

The report stated that owing to the long open spring there is no great need of men for seeding but that there is a great need of women help. For the harvest season from August 1 to November 15, probably 50,000 men would be required.

Ontario members of the committee disputed the statement that there is no serious shortage of men for seeding purposes in eastern Canada. Frank Glass questioned the good judgment of 112 Hazen street, St. John, N.B.

FIRST WOMAN CHAUFFEUR HERE

The first woman chauffeur of a public taxicab has made her appearance in Toronto in the person of Miss Clara in Toronto in the person of Miss Clara Fennell, 921 Yonge street. Those who have had experience of Miss Fennell in this new line of war work speak of her efficiency and skill in handling her car. She had driven a car for some month, but only recently took out a license. The entry of Miss Fennell is probably an example that will be followed by others before long, the need for women to replace men being in all probability as great in this line as in the banks and factories.
