LIVE STOCK MARKET

Trading on the exchange yesterday with fresh offerings of cattle limited to less than 300 head of fresh stock was even slower than the early part of the week and while we would not say that there were any very sharp reactions, the trade was extremely drab and all classes of cattle were mighty hard to cash in the country. Light calves, heavy run on Monday it looks like still lower prices. Cattle are higher relative to the country than they were in the market and drovers report that it is hard to buy them to hold their own, to say nothing of special notes.
