Right Sort of Husband.

Time was when the foxy woman married a man devoid of beauty, with the idea of always being beautiful by comparison. She fancied herself isolated in this cleverness. Not so. Indeed, the inevitable until husbands are like certain breeds of dogs—the more ugly the more valuable.

Nor would an astute woman make a gift tongue and a pretty knack at love-making one of her requirements. Undoubtedly it is desirable to meet with a man who observes what you have on, understands your moods, knows how to turn a dolt compliment into a compliment, and is willing to forego on love, but such a man does not make a soothing and restful husband. He is too apt to practice his accomplishments elsewhere.

A woman never really feels love with any man except one whose love-making comes like pulling teeth. The few come, the many go, and the few that remain are the few that are worth anything. A woman never really feels love with any man except one whose love-making comes like pulling teeth.

The real explanation of this state of affairs is to be found in the fact that few women seldom have a husband at home.

Here is the present ideal make-up for a husband: Sympathy, 50; money-making, 15; good spirits, 13; attentiveness, 12; domesticity, 10; good looks, 0. Total 100.

A Dainty Recipe. In spite of the fact that experiments with spoons and saucers are being tried but beneficial to the "dainty fingers," Miss Maud Powell, who is certainly one of the world's great chefs, cannot be persuaded to keep away from the kitchen.

It is called—his prepared as follows: Broil the chops as usual, but be careful to see that they cook thoroughly, as they should never be underdone. Take some tomatoes that have previously been stewed with cream, butter, bread-crumbs, pepper, salt, and sugar, and mix with well beaten eggs in the proportion of one egg to each half-pint of sauce. This sauce, when cooled, should be seasoned to taste, being careful not to forget a few pinches of curry powder. Heat the sauce in a frying pan, when a little butter has been added, and when the chops are ready, put them into it. Leave them there for a few minutes, or until they have become thoroughly heated, but be sure that you do not let the sauce become so hot that it will brown too much, as this will spoil the appearance of the dish.

Inventing the dish known as "Kidneys a la Knickerbocker," Miss Powell has succeeded in devising one of the best and tastiest methods by which liver and kidneys may be prepared for second service. She takes the cold broiled kidneys that were left from breakfast, and chops them, then to put to fine. She then places them in a double boiler with butter, salt, pepper, cream—one teaspoonful of the latter for each kidney—and enough small pieces of

Special accommodations have been secured from the Allan Line for the World party, and the ocean voyage will be a delight to all. Upon arrival at Liverpool special accommodations will be provided for the party on the trip to London via the London and North-western Railway.

The World party will stop at the Hotel Cecil during their stay in London. The Cecil has reputation amongst travelers as being the most delightful hotel throughout continental Europe.

Each day of the stay in London will be a continuous round of sight-seeing and amusement. The morning will be devoted to individual shopping expeditions, according to the tastes of each member of the party. After luncheon carriages will take the party to various points of interest, such as the houses of parliament, the Tower of London, St. Paul's Cathedral, Westminster Abbey, St. James' Palace, Hyde Park.

In the evening dinners will be given at the famous London restaurants, such as Cafe Royal, The Trocadero, Holborn Cafe and others. Following the dinner party each evening, the World party will adjourn to box parties at the principal London theatres.

Paris will be visited, and as much accomplished as possible during the time at the disposal of the party.

The World party of Ontario women will be extended every official courtesy during their stay in London.

World Pattern Department

1910 Ladies' Waist. Having Body Lining, High or Low Neck, and Elbow Sleeves, With or Without Prills. Paris Pattern No. 1010. All Seams Allowed.

Flower touches have deep sprays arranged at the back, ending in buds and grasses. The pattern is in six sizes—32 to 42 inches, bust measure. For 36 bust, the waist needs 3 1/2 yards of material 20 inches wide, or 2 yards 3/4 inches wide, or 1 3/4 yards 42 inches wide.

Flowers of the smaller varieties are being worn extensively, yet roses are exceedingly good and are shown in all sizes and colorings. Old-fashioned flowers, such as heliotrope, magnolia, verbena and bleeding-hearts, are natural enough to waken memories.

A picturesque effect is seen in the hats with low crown and the wide brim that droops slightly at the front and back. These are trimmed with profusion of flowers that are massed at the left side and mingle with ribbon loops, or they have drooping plumes that fall over the shoulder, with probably a shorter one curled under the brim. White or cream plumes shade at the ends and into the color of the ribbon or flowers.

Lady Grenfell Memorial. The memorial cot to the memory of the late Lady Victoria Grenfell, daughter of the governor-general, has been ordered by the Hospital for Sick Children, Toronto. This cot was subscribed for by a number of Toronto citizens, through the agency of Mrs. Kerr, wife of Senator Kerr, and Mrs. Worthington of Downing-avenue, daughter of Mr. H. Cook.

Nurses' Meeting. All nurses interested in the new clubhouse are requested to meet in the nurses' residence of the Hospital for Sick Children to-night to make further plans.

PERSONAL. A quiet wedding took place at the home of H. Pickering, 34 Eastern-avenue, when Miss Marie Lefevure, the second daughter of Mr. and Mrs. Charles Lefevure, and John Pickering were married. The bride, who was dressed in white satin cloth, trimmed with cream lace, and white satin, was attended by her sister, Miss Maggie Lefevure, and the groom by his nephew, Henry Hable. They will reside at his home.

Miss Alma Rogers is in Hamilton, attending the annual meeting of the Fletcher Music Association for Children.

A Fine Trip. A fine trip on a fine day means a fine time. To-day, according to the weather, and prognostication, will be fine. The trips on the Macassa and Modjeska are always fine, and the time is fine because the service is fine. These steamers make six trips between Toronto and Hamilton to-day, leaving Toronto at 7:30 and 11 a.m., 2:15, 5:15, and 8:15 p.m., and leaving Hamilton at 7:45 and 10:45 a.m., 2:45, and 11 p.m. A 75 cents return-fare is in force and a ten-trip ticket on issue for \$2.

Bill Carries. ALBANY, N. Y., May 23.—Governor Hughes to-day approved the much-discussed bill of Senator O'Neil, incorporating the Long Sault Development Co. for the purpose of developing electrical power by the use of the waters in the Long Sault River in the vicinity of Long Sault Island, St. Lawrence County.

Author and Editor Dead. CONCORD, N. H., May 23.—News reached here to-day of the death of Mrs. Ella Farman Pratt, author of "Books for Young People." For many years Mrs. Pratt was editor of Wide Awake. She was 64 years of age.

Three More. Writs claiming damages for alleged libel were issued yesterday on behalf of Mrs. Mattie Perkins against The London Free Press, Clifton News and Brantford Courier. There are now 28 actions entered for a total of \$280,000.

Mining in Eastern Ontario. KINGSTON, May 23.—The Big Dipper mine, situated a few miles north of Kingston on the C. P. R., is now in operation, and the prospects are good. The property contains gold, copper and iron.

CASTORIA. Bears the Signature of Dr. J. C. Ayer.

NAMING OF COADJUTOR SUBJECT FOR THE SYNOD

Special Committee Disagree and Temporary Appointment May Be Made.

The appointment of a coadjutor bishop for Toronto will be one of the important features of the Anglican synod meeting, which convenes June 12. Last year there was considerable talk of creating such an office, as the work of the diocese was really too heavy for one man to care for. Steps were taken to make the appointment, but the matter was dropped for this fall. The matter was placed in the hands of a special committee to see if a stipend could be arranged for the coadjutor with the slight of succession.

This committee will report to the synod next month, but it is generally known that the committee came to an absolute disagreement which leaves the only solution for the present, in the appointment of a temporary assistant to His Grace.

The assistant will in all probability be selected from the episcopate, because the chief difficulty all this has been in the matter of guaranteeing the stipend and if an outside bishop were selected, the diocese would be obliged to stipend with him. The main obstacle in the way of securing an adequate stipend rests in the fact that the diocese is divided among the high and low churches.

Bishop Reeve, of Mackenzie River diocese might, while in the city, be chosen the most desirable man, as a likelihood of some other bishop being named, if the appointment is made at all.

Another important question for the synod will be the consideration of clause 6 of the executive committee's report, dealing with the regular country clergymen that they are unfairly isolated in small districts, with poor prospects of advancement.

While no alteration can be made with reference to qualified parishes, they feel that those in charge of missions should be shifted to more promising charges whenever an opportunity is afforded.

The question of moving the synod office to East ward is under consideration. St. James' Cathedral property will also come up. St. James' Cathedral is contemplating the erection of a new and larger building, and it has been suggested that the latter be adapted to the requirements of a city house, synod office and meeting place.

DEFENDS HIMSELF.

Claims He Knows Nothing About the Murder. NEW YORK, May 23.—Testifying in his own defence, John Sell, charged with having murdered Dr. Charles W. Townsend of New Brighton, Staten Island, to-day declared in court at Richmond that on the night of the crime he was in Manhattan and took a young woman to a theatre. Afterward, he said, he took the young woman on a car to the Bronx. On the way, he said, he fell asleep and when he awoke after a long ride the young woman had disappeared.

He declared that he did not get back to Brooklyn until 6:30 a.m. and then the two men were talking about the murder.

He was to-night found guilty of murder in the first degree and sentenced to the electric chair for the crime. He will be executed on the first Monday in January next.

TOO MUCH LAXITY.

Crown Attorneys Neglect Cases Against Railway Employees. OTTAWA, May 23.—Dr. Mills of the railway commission expresses the opinion that crown attorneys are, as a rule, entirely too lax in neglecting to formulate and prosecute charges of manslaughter against railway employees or officials responsible for fatalities.

The prosecution in all cases depends upon the provincial authorities, and the duties of the board ending after the facts have been brought to the attention of those whose duty it is to enforce the criminal code.

GERMANY'S NEW CANAL.

The Teltou, 23 Miles Long, Diverts an Enormous Traffic. The greatest recent canal project in Germany is the Teltou Canal, near Berlin. The immense river traffic on the Havel and the Spree has been much hampered by being obliged to follow these streams thru the city. The Teltou Canal permits this traffic to be diverted.

The canal only 23 miles long, and there is a saving in distance of only 20 miles in the main river route. But the gain is in the time formerly necessary to get thru the city. The total expense of construction, including bridges, harbors and electric works, was about \$11,500,000. The channel, says The World, is 20 metres broad at the bottom and 2 metres deep, with a tow-path 2 metres broad.

There is only one lock, with a fall of water of 1.7 metres. The canal is the latest and most improved system has been employed. Its gates, etc., are worked by electricity, and the canal's own electric works, the towing also being done by electric locomotives. Fifty-five bridges had to be built, and the expenditure is fully justified by the enormous traffic thru Berlin, which amounted in 1905 to nearly 12,000,000 tons.

Engineers' Club Meeting. An interesting paper regarding up-to-date methods of railway fencing, sent by Eslinger, was read before the Engineers' Club last night by R. F. Tate, of the Canadian Northern railway. Prevention of the heavy axle load, and the effect of the spreading of posts was also discussed. F. Somerville, R. S. Gagne, Major Van Nostand and R. A. Baldwin taking part.

THE FOURTH STANDING OF CANDIDATES

In the Trip to London Contest, as it Was on Saturday at Midnight, is Given Below.

DISTRICT NO. 1

Standing of the First Thirty Candidates in the City of Toronto.

Table listing candidates for District No. 1 with names and vote counts.

DISTRICT NO. 2

Standing of the First Six Candidates in the City of Hamilton.

Table listing candidates for District No. 2 with names and vote counts.

DISTRICT NO. 3

Standing of First Sixteen Candidates in Province of Ontario at large

Table listing candidates for District No. 3 with names and vote counts.

The fourth standing of candidates in the Trip to London contest, as it was on Saturday at midnight, is given above.

Miss Ida Vandemark closed the week with a rush and secured first position. She managed to win out from Miss Lizzie McGregor by five hundred votes, who defeated Miss Eleanor Skene for second place by less than six thousand votes.

This battle for first place during the past week has been a spectacular one, and the Miss Vandemark has managed to win by a very small margin. For a time it looked as if the contest would end with increased fervor.

Miss Eleanor Skene has managed to hold her position in the field by strong fighting, and a great rally on the part of her large circle of friends. E. R. Richardson, the late to enter, is doing well.

It is to be noticed that a large number of candidates are decreasing in the lead of the first six candidates, and during the coming week it will not be surprising to view a great shake up in the first thirty candidates, and the appearance of a large number of new voters.

A number of the candidates are "stretch runners," and prefer to make their way later on. It is common rumor that there are three young ladies, whose nominations are not yet in the hands of the Trip to London Editor, who will soon enter the race and close with a sensational race.

The contest in Hamilton, the slower to get started, is becoming very interesting. Miss Olive Board has reversed the order of sequence of last Thursday, and has jumped to first place by a very small margin.

Miss Maud Smith is within easy hailing distance of the two leaders, and may spring a surprise at any time.

Miss Allan still continues to hold the lead in the province, tho a large number of candidates are beginning to show strength and may make the present leader earn every ounce of energy during the next few weeks. Miss T. E. Richardson, the late to enter, is doing a remarkable feat in this Trip to London contest, is the comparative amount of interest displayed by the different places in the Province of Ontario, in the Town of Whitby, which boasts slightly more than fifteen hundred inhabitants, Miss Allan and Miss Bryan are fighting a battle royal.

Whitby is to be congratulated upon its showing. When the contest closes at midnight, July 22, 1907, and the eleven successful candidates are about to start out on a trip unequalled in the history of this great Dominion, there is but little doubt but that Whitby will be well represented.

But of the Cities of London, Kingston, Peterboro, Windsor, and so on thru the Province of Ontario, CAN IT BE SAID THAT THEY HAVE NOT THE ABILITY, THE ENERGY, THE PROGRESSIVENESS, TO TAKE ADVANTAGE OF THIS OPPORTUNITY OF A LIFETIME? THEIR MUNICIPAL PRIDE STAGNANT? HAVE THEY NO DESIRE TO SEE THEIR DAUGHTERS VICTORS? TIME WILL TELL THE STORY.
