London, Oct. 26.-The War Office to-day received the following telegram from Gen-eral White: Ladysmith, Oct. 25.-Brigadier-General Yule's force has left Dundee with the view of concentrating at Ladysmith. To avoid the risk of life which a long march would have entailed, the wounded were left at Dundee under medical su-pervision.

fund, but it was a God-given sentiment. Great Need in the Yukon. A stirring address by Rev. A. S. Grant, M.A., the first missionary to the Yukon, was given on the fund, in reference to the helping of missionaries. The necessities of the church, he said, required \$10,000,000 instead of \$1,000,000. No one had any idea of the work to be done out in the Yukon, where men, reckless of health and all else, went for gold. More good had been done by looking after the slek and worn-out miners than by the preaching in the churches, in conclusion, he said he had all faith in the Presbyterians of Canada, in their making the fund a success. Young People Interested. To show that the young people were with the church in the movement, the presi-dent of the Christian Endeavor Union, Mr. G. Tower Ferguson, spoke. He showed that enthnsiasm and gush were very dif-ferent in the carrying out of anything. He wanted those to give who could, and those who couldn't give to encourage those who were trying to make the fund a success. Speech of the Evening. thedral.

prayer. History of the Scheme. The history of the Scheme. The history of the scheme, as was shown by Dr. Warden in his opening remarks, had been very eventful. It was first pro-posed in Hamilton last year, and atter much discussion it was unanimously adopt-ed by the Assembly. The plan of the fund was then described. Four hundred thousand dollars was for churches in debt, and \$600,-000 for different branches of church work. The contributions were to be over and above what was needed to run the church-es. Aiready over \$60,000 had been contri-buted by six hundred ministers. He thought \$150,000 would be the amount foronto would raise, which would only be \$2 for each of their 30,000 communicants. The organizer of the fund, Dr. Campbell, the fund would do, particulariy in the west, where, as Canada was now entering into an era of great prosperity, people of all creeds and nationalities would come. New Officers Sent-Basutos Loyal to the Queen.

Messrs. Blair, Fleiding and Gibson, and Messrs McMullen and Mutrie, also Dr. Landerkin, were warmly received in Fer-gus yesterday. At a meeting in the skat-ing rink the Ministers and members made speeches, after having listened to an ad-dress of welcome from the Municipal Coun-cil. Dr. Johnson, secretary of the Reform Association, read an address to Sir Wil-frid, eulogizing his public and private life, his honesty and his good work at the Jubi-lee. The address also "approved his course in sending a Canadian contingent." The Premier, in his reply, after references to Sir Charles Tupper, read a letter requesting his opinion on the temperance question, to which he made "courteous" reply, clos-ing his speech with a "brilliant" perora-tion on Canada's duty now in the war, and to the Queen. London, Oct. 26.—The despatches from the front are so diversified and contradic-tory that it is difficult to outline the situ-ation with any degree of exactitude. Three or four main facts, however, stand out prominently. Gen. Symons' fight at Glen-coe was not anything like the decisive vic-tory at first alleged, and Gen. Yule would in all probability have been annihilated or have met with the same fate as the cap-tured Hussars if he had not retreated. A Severe Engagement. Gen. White's artillery duel at Riefontein

A Severe Engagement. Gen. White's artillery duel at Rietfontein was a very severe engagement, in which the rifie did great execution, and which suc-cess was only achieved at a distressing cost. The bombardment of Mafeking has commenced, with unknown results, and the Boers have got their Hussar prisoners'safte-ly at Pretoria. Altogether, the campaign is being rushed by the Boers so strenuously and on such sound strategical lines that the situation of the British must in all proba-bility give them cause for deep anxlety for some time to come. New Officers Sent Out.

It is fashionable to-day to have a new heart scare every 24 hours.

New Officers Sent Out.

New Officers Sent Out. It is difficult to see how the concentrated force at Ladysmith will be able to take the aggressive immediately. Apart from the fatigue, regiments like the Gordon High-ianders and Royal Rifles have been prac-tically without officers since the fight, and 135 additional officers have been ordered to leave England as speedly as possible. Fighting at Rictfontein. An official British account of the fighting at Rictfontein given out at Cape Town says: pepsia or nerve trouble, such as palpitation, weak spells, loss of appetite and poor circulation are magnified and distorted into serious signs of heart trouble, with the object of

frightening the public into taking this or that heart remedy. If a hundredth part of the heart trouble

At Onterna Datish account of the account says: "The enemy posted a battery two miles south of Modderspruit, and open-ed with infantry fire at long range on the British advance guard, consisting of the 19th Hussars. This was followed by artillery fire, directed with consider-able accuracy, against the British guns. An action lasting six hours ensued at Rietfontein farm. The enemy were driv-en from the hills commanding the roads. Sir George White's object being accom-plished, the column returned to Lady-smith. The enemy is believed to have suffered. Several Boers own officially that they lost over 100 killed at El-andslaagte. Three hundred prisoners, wounded and unwounded, are in the hands of the British, including several of high position. Other accounts dwell on the severity of the rifle fire at Rietfontein. They say that when the Boers finally retreated the Lan-cers cut them off from their horses and in-dicted severe loss on them. The retreat, if is added, ended in a general rout. If is unnounced to-day in a despatch from Lady-whith, dated Oct. 23. that strong reinforce-ments of infantry and artillery have arriv-ed there from Pietermaritzburg.
