

little success; but that as soon as they entered heartily upon Foreign Mission Work and preached the Gospel to the Gentiles, it had abundant success.

It is true that a few of our people, living in the vicinity of the new congregation in Stewarton, have withdrawn from us to connect themselves with that congregation. However, we do not find that our congregation has sensibly depleted in numbers. On the contrary, we are delivering rather more *Records* now than at any time past.

Another gratifying feature worthy of note is this: that in Upper Town our congregation is gradually but surely increasing in numbers. Especially is this the case in the southern part of the city. Instance the territory south of Nepean Street to Ann Street, the old city limit; 2 or 3 years ago we had not more than 10 or a dozen families in this territory, now we have some 55 families there, and many young people besides. Mr. Masson's district, west of Bank Street, is divided into two *Record* Districts, the case of one, the newer and younger part, deserves special notice. In 1890 this district contributed to the Scheme altogether \$16.00. This year the same district, wrought by Miss Hattie Mutchmor, contributes \$33.20, more than double the amount of last year's contributions.

M. McKINNON.

Secy.-Treas. Mission Schemes.

ACCOUNT OF 1890

Amount acknowledged in 1890 Report.....	\$565 90
Cheque from Mr. Wardrope	50 25
