Christmas is coming! The first enippy Saturday with the rim of ice on the sidewalks and a hint of the mild snowstorm of Friday night brought shoals of children down town this afternoon. It was a happy thing for them that they found Santa Claus, even with the real Christmas a full month ahead. Santa was perched up in state in the centre of a big show window, the same old jovial Santa, surrounded by a mouth-watering fearfully delectable array of toys. Not content with looking at him from the sidewalk, kiddies of all ages to be vitally interested in the kit bag of Santa Claus, pressed close up to the window, Jamming their noses against t, to get a real tivities of the commission of the refugees is relatively good and that there is no truth in information it had received that tubercules was raging among them. House-to-House Canvass Begins on Tuesday Here.

For the first time since the war began, the Bible Society will commence a house-to-house canvass on Tuesday next for funds with which to carry on its good work. London being one of the centres for Bible Society work, it is expected Londoners will contribute liberally. During the war, more than 11.000 New Testaments were distributed among the troops leaving London, and it is owing to the increased cost of paper and production that the society is compelled to appeal to the citizens for funds. The work of canvassing is being undertaken by voluntary workers from the various churches of the city.

#### RETRIBUTION

'King Albert Enters Brussels," when we saw in Morning 'Tiser That headline boldly printed there, we thought of Bill, ex-kaiser, And the time in 1914 when he told the Belgian King That he'd stripped him of his kingdom, people, crown and everything. He boasted that the German flag of kultur ruled the world—And all who would oppose it into ruin should be hurled; But the Belgian monarch answered with a spirit calm and whole, "You have robbed me of my kingdom, but I'm captain of my soul."

There has been a day of reckoning, God, who still rules in his heaven, Has overthrown the tyrant and his hordes are backward driven; The humided Belgian monarch is restored unto his own, And a loyal rescued people crowd with joy around his throne. But the hand of retribution overtook the Prussian lord, For he who taketh by the sword shall perish by the sword; And the Berlin beast and bully who set kultur as his goal, Has not only lost his kingdom, but his own immortal soul.

# FRONT LINE TROOPS

Two Classes of Rations Are Handed Out; People

London, Nov. 22.—It is pointed out in connection with the appeal of Dr. W. S. Solf to the United States for food that there are two kinds of rations in use in Germany. That for the soldiers in the first lines has been much larger than that granted the rest of the nation.

It is said that Dr. Solf appears anxious that the front line standard shall be maintained for the large body of troops returning from the front.

This ration is considerably more generous than that to which the British people have been accustomed during the last four years.

SAY PAY IS TOO POOR

And Deny Agreement With Employers Was For Stated Period.

Local plumbers have called a strike for Monday morning. This was decided at a meeting of the union last evening. The master plumbers have been notified to this effect. The men are asking for 65 cents an hour which has been refused by the employers. The men point out that London is the lowest paid city of any around the district. They are authority for the statement that Toronto plumbers receive 65 cents and over, the same in Hamilton and St. Catharines; Windsor pays 75 cents while in Kingston and Brantford the men receive from 60 cents up.

The scale in London is at present 50 cents. Last spring the men asked for 55 cents, and the employers compromised with 50 cents. The men say that this scale was not for any stated term. Some time ago the negotiations were started for an increase, but on account of the "flu" the meetings had to be called off.

The employers met on Wednesday afternoon and decided not to accede to the demands of the men and their decision was the cause of the meeting of the plumbers last night, with the result that the strike has been called for Monday morning. point out that London is the lowest
