

GRAFTON & Co.

CANADA'S LARGEST MANUFACTURERS
OF SUPERIOR CLOTHING

Another Big Day's Demonstration of Supreme Value-Giving By London's Most Economical Clothing Store

A Big Drop In the Prices of Clothing

A sharp reduction, a tumble in the price that proves once more that we are down on high prices, and that the Grafton store is a real benefit to London and surrounding country. Hundreds have thoroughly convinced themselves, this spring, that our prices are not only the lowest, but our quality the highest shown in this city. The reason is simple. We are manufacturers; no middle man's profit to pay—a direct connection with the sources of supply, an immense output through our chain of seven stores; hence our ability to give you every advantage in price and quality. Can any other dealer give you these advantages? Look around, compare prices and qualities; then you'll soon select Grafton's for your favorite clothing store.

QUEBEC'S PREMIER DINES WITH KING

London, May 13.—(Canadian Press).—Premier and Lady Gouin dined with the King and Queen today at Buckingham Palace. The premier was also notified today that he had been created commander of the Legion of Honor. The insignia will be officially conferred in Quebec by the president of the Franco-American committee. Premier Gouin sails on the Minnedosa tomorrow.

PRICE OF BREAD WILL FOLLOW LEAD OF FLOUR

BRANTFORD, May 13.—Announcement was made by local millers today that the price of flour had advanced 50 cents a hundred pounds. It was also intimated that as soon as present stocks in the local bakeries are exhausted there will be an increase in the price of bread, with a second increase in the not far distant future.

CHANGES IN DRY LAW UNDER FIRE IN LEGISLATURE

Members Object To License Commission Controlling Doctors.

BRACKIN CRITICIZES

Objects To Toronto Magistrate Issuing Search Warrant For Whole Province.

[Special to The Advertiser.] TORONTO, May 13.—The act amending the Ontario Temperance Act, given second reading in the Legislature today. The debate lasted most of the afternoon, most of the criticism being levelled at the clause, which gives the board of license commissioners power to refuse to honor the prescription of a doctor "for any cause which the board may deem sufficient." The critics contended that the board had no right to take "control of doctors" in such a way. The Government members argued that the doctors themselves were in favor of such a restriction. W. E. N. Sinclair (South Ontario), thought the medical council should be left the powers to deal with doctors, as it was responsible for their behavior. Neither did he like the clause giving the police magistrate of Toronto power to issue a summons for any place in Ontario. He also thought the clause regarding standard hotel licenses which prevented restaurants in the same building would lead to trouble with municipalities. Another objection was bringing the act into force immediately. The changes were many, and he thought, many quite innocent, not knowing the law might suffer. A chance should be given for them to get acquainted with the new regulations. Nixon Reads Letter. Hon. Nixon, provincial secretary, read a letter from the Physicians' and Surgeons' Council that they did not want responsibility on prohibition questions, and thought all the powers should be vested in the license commission, leaving them free to take the case of a moral question. Karl Homuta, Labor member for South Waterloo, again attacked the severities of the Ontario Temperance Act, which took from the pockets of the poor man a fine of \$200 and costs for being caught with an ounce of liquor in his pockets. The Government system of vendors in large centres had the effect of tempting a man in need of liquor for medicinal purposes to go out and get it by surreptitious means rather than through circuitous legal channels. R. L. Brackin (Liberal, West Kent), vigorously attacked the clause in the proposed amendments which gave sanction to the Ontario license commissioners to cut off any doctor "for any cause which the board may deem sufficient." He exclaimed: "It is not right that the control of the medical profession should be in the hands of the chairman and his associates of this board." Whiskey Detectives. Particularly incensed was the West Kent member over the clauses which gave whiskey detectives the right to apply to a Toronto magistrate for a search warrant with which to invade the privacy of the home of a citizen of another village, town or city. "If these police magistrates can sit here in Toronto and issue search warrants to search the house of any man in the province of Ontario, I saw every member of this Legislature ought better to search and leave it to the board of license commissioners, remove our magistrates and officials in the other towns and cities," said Mr. Brackin. J. W. Currie, Southeast Toronto, declared that while it was very easy for the West Kent member to protest against the search of the homes of respectable citizens, it was not that the board of license commissioners intended to search under the clause. In Mr. Currie's opinion the clause made infringement on the liberties of the people. Mr. MacBride characterized the proposed license board mandate over the doctors as an "insult" to the physicians of the province, in reply to which Provincial Secretary Nixon reminded him of the letter of acquiescence from the College of Physicians and Surgeons. "They have approved of it," declared Hon. Mr. Nixon. MacBride Opposes. Mr. MacBride: "Well, I don't approve of it." Mr. Dewar: "They are not legislating; we are." Another complaint of the Brantford member was the rigidity of the O. T. A., which prohibited a sick man, after the license had been purchased, a bottle of liquor, from taking "two teaspoonfuls" before he reached his home, although the Government intended appointing a committee to go into the affairs of the board and the O. T. A., generally, why, asked Mr. MacBride, the haste for all this drastic legislation, which ultimately may not mean anything. H. H. Dewar, K. C., declared himself disappointed with the new legislation, inasmuch as it dealt with the doctors. "I would have thought," he declared, "that there was enough evidence to show that the license commissioners should not be entrusted with the whole control of the liquor business, but that they should be investigated." He attacked a system which compelled a poor man in need of liquor for medicinal purposes to pay \$3 for a prescription and \$5.50 for the liquor. "Why," he continued, "is this matter being run on a basis of profit for the Government?" "I propose," Mr. Dewar continued, "that estimates being reached, to move that such sum be struck out as provides for any more than one commissionaire." Mr. MacBride arose to ask if the Government were aware that at the present time there was being erected at Oakville a large factory for the purpose of manufacturing Canadian native wine. "Will he include in the amendments," he asked, "some measure to prevent the sale of intoxicating wines?" Hon. Mr. Nixon—"It has been the express purpose of the Government not to interfere with the fundamental principles of this act so soon after it has come from the people." Hon. W. E. Raney said that the giving of the greater power to the Toronto police magistrate was to give the inspectors a chance to operate in remote districts on such a warrant, as there might be difficulty in getting a local magistrate in such places. Replying to the criticism of the amendment which gives the board a greater power over doctors and prescriptions, the attorney-general said that 99 per cent or even more of the doctors were all right. He quoted figures, however, showing that there were odd doctors who abused their privilege. He quoted from returns showing several doctors who issued prescriptions for 200 quarts of whiskey a month. One had issued 360 prescriptions in one month, for quarts in every case, and at the same time had six gallons for office use. One doctor who had issued upwards of 250 prescriptions a month had in every case put the amount in as N-E-D, and had then certified that one quart was the minimum quantity for this disease. Mr. Sinclair wanted to know what disease N-E-D was, but nobody enlightened him. Mr. MacBride was astounded that such things could not be stopped, but the attorney-general said there was nothing to do it under the act until it was amended. Mr. Raney admitted that he might not be favorable to the present board of three controlling the liquor business, but that he hoped would be investigated by a committee to be considered during the recess. He expressed confidence in each of the individuals composing the board. FIND OUT WHO HAS SUFFERED UNDER O. T. A. TORONTO, May 13.—(By Canadian Press).—Revelations as to who has been unjustly prosecuted under the Ontario Temperance Act and who has not, may be expected when the public accounts committee of the Legislature meets tomorrow. J. A. Pinard, East Ottawa, and Col. Cooper, Northwest Toronto, moved at this morning's sitting that all orders-in-council for the remission of fines under the O. T. A. be produced then. This is an upshot of the slight fracas in the Legislature yesterday when Hon. W. E. Raney, attorney-general, stated that no industries had been convicted in the administration of the O. T. A., and H. H. Dewar, South Toronto, quoted the remission fine as proof that there had been. ELGIN COUNTY MAN GOT FISHING LICENSE TORONTO, May 13.—The public accounts committee of the Legislature today ascertained from Deputy Minister

D. McDonald, of game and fisheries department, that Hon. F. C. Biggs is giving a new license for fishing in Lake Nipissing to Capt. J. A. Brown of Elgin County after his license was cancelled last fall. Capt. Brown had a contract with the Government to sell his whole catch to the department, but is said to have sold to a private firm in Port Dover. Mr. McDonald said he did not know why Mr. Biggs is again letting privileges to Brown. CO-OPERATIVE SEED ASSOCIATIONS TO GET LOANS FROM PROVINCE TORONTO, May 13.—Co-operative associations in the provinces whose purpose is the cleaning, storing and marketing of seed and potatoes will be able to borrow money up to \$5,000 from the Provincial Government, if a bill introduced by Hon. Manning Doherty, minister of agriculture, becomes effective. The bill says the money may be loaned for the purpose of acquiring quarters and equipment. The loan must not exceed 50 per cent of the value of the property to be acquired. The loan is free of interest for two years, and then pays six per cent. Fifty per cent of the loan must be paid in five years and the remainder in another five. Chattel mortgages and farm mortgages are required as securities.

Exceptional Bargain Sale of Dresses

Instead of carrying over any Tricotine or Wool Jersey Dresses, we have decided to clear them out immediately. Sales will be run every day this week until every dress disappears. They will be priced regardless of cost. All dresses selling at certain figures will be grouped together and then priced at a figure that will compel sales.

Tomorrow Every Dress Priced at \$39.50, \$42.50, \$45.00
Will Be Sold At

\$29.50

Not an old style in the lot. Many arrived too late for early spring trade or they would have been sold now. There are dozens of styles to choose from, straight line—basque and coat effects—some come with separate skirts. The majority of these Dresses are navy blue, other shades being seal, taupe, kangaroo, sand, grey.

Every Dress priced at \$47.50, \$49.50, \$52.50, \$55.00, \$35.00
will be sold at

There Are All Sizes, 16 to 40.

If you have any intention of getting a dress—if you need one for street wear, business wear, the country or seaside wear—don't miss these sales.
