# Narrow Price Fluctuations Characterize Cobalt Stocks

Public Participation in Market Movements Continues Light-Kerr Report Has It That \$60,000 Has Lake Firms on Better Speculative Demand

Friday Evening, Jan. 14. A slightly better tone was exhibited by the majority of the Cobalt securities on the local markets early in to-day's sepsion, but stocks sold off later and closed weak in most et s. Such issues as Beaver, Timiskaming and some others of the lesser priced stocks main-tained at easy prices but a firmer attitude was assumed by the higher priced shares, particularly so in the case of Kerr Lake, which advanced 20 points to \$10 under a better specu-lative demand, while it was apparent that holders were not as inclined to liquidate as readily us has been the inquidate as readily as has been the case for some days new. During the afternoon abother slump set in, however, the shares retreating to \$9.60, and closing weak ten points lower. A flurry in clotalt Lake was the feature of the market. These shares sold up a point to 15 on rumors of more lavorable developments on the property, but as is usually the case, lost part of this grain later in the day, Ophir part of this grain later in the day, closing at 14 3-4. The other Cobalts from the previous session.

The recent shake-out in the market Roches has to a certain extent cleaned out a of weakly held accounts, and placed the list in a better technical position to sustain a rally. But as long as Trethewey outside participation in the trading Watts .... continues as dormant as appears to he the case at the present moment, no movement of consequence is likely to

Some of the specimens we have seen are simply marvelous. The description given us is that great ridges of quartz rise suddenly from the level. cften with swamp on each side and a great animal. It is described as a country of easy access and easy to work. The diamond drill worked on the O'Brien claim, we are told, shows

values to a great depth.

On the other hand, we learn that complete townships or 44,000 acres. have been staked without missing one 40-acre lot, and that probably not more than one in one hundred has minerals Where values can be shown the mining man, who is willing to put up his money in order to work a claim and to discover whether it is in pay-ing quantities, is asked such a preposterous price as to quite preclude the possibilities of doing business. Besides the two complete townships staked, four other townships are partly staked and Toronto, Montreal and Ottawa, and every town in Ontario, swarms with men trying to sell snow-staked claims, one in a hundred of which perhaps carries minerals of value.

The word we have received from our

advisers is to "go slow." That there are good values, we may say enor-mously good and valuable claims in Porcupine, is undoubted. The difficulty is to separate the wheat from the

Mr. Waldman to Porcupine. Mr. J. H. Waldman, president of the Waldman Silver Mines, Limited, accompanied by H. W. Hardinge, the consulting engineer for the Waldman Mines, arrived in Cobalt on Wednesday, and spent to-day at the Waldman Waldman left late in the day for a trip to the Porcupine district with Mr. Hardinge and Mr. Sherron of the Waldman staff.

#### PRICES ARE EXTRAVAGANT

Claim Holders in Porcupine Are Turn ing Away Cash Buyers.

The owners of claims in the Porcupine goldfields are said to be holding them at extravagant figures and quite a number of men who have already come to Toronto or gone up to Hatleybury from the east, and some even from England, have taken their money back, because they say the prices and terms are too high and too onerous.
As a general thing the claims change hands on what is called a "working option," under which the purchaser pays down a certain number of thousands of dollars cash and agrees to make payments at intervals thereafter as he is in a position to accept the pro-

An English mining engineer, who has been all thru the camp, and who thought rather well of it, left yesterday for England, for the reason that English capital would not buy claims in the Porcupine except when they were proved. In order to do business, therefore, the owners of some of these claims will have to modify their first payments and the terms on which the subsequent ones are to be made. There is a great deal of difference between ap of ready cash and what may be a lump of ready cash and what may be called a mining prospect, and the wise man in mining is the one that cashes in at reasonable prices and reasonable [Cobalt Cent. 21] [Ely." Cent. ... 2

To-night the officers of the St. Pat-ck Chapter, Royal Arch March March 12. La Rose .... 4 ... Nev. Con. ... 26 rick Chapter, Royal Arch Masons, will be installed by R. Ex-Com., R. W. Brennan, assisted by the past principals of the chapter. Always an enjoyable function this year's installation night in the St. Patrick will be featured by an elaborate banquet, followed by a brilliant after entertain-

### CLOSING UP OPTIONS ON PORCUPINE CLAIMS

Been Paid on Timmins Properties.

It is understood that Henry and Noah Timmins paid \$60,000 to the Hol-lenger people on Wednesday as part payment on the claims in Porcupine, which they are said to have bonded which they are said to have bonded for \$330,000. A report is also current to the effect that M. J. O'Brien will pay \$50,000 to-morrow in part payment of the claims which adjoin the Hollenger property. Both parties have had experts on the property, and if the indications look good enough to warrant an outlay of that extent, a prospector would be justified in look-ing for something good.

#### RALLY SHOULD ENSUE

Mining Markets Assume Good Appear ance at Present Levels.

Heron & Co.'s letter says: After fairly steady opening, the mining market developed a dull and heavy part of the week. Weakness in New 231/2 York stocks no doubt exerted a considerable influence towards the ab-sence of outside participation to any extent. Trading was in moderate volume and mainly confined to the speculative favorites. The bulk of the selling, however, was for the account of in and out operators, who were perhaps disappointed that the expected January boom showed no signs of materializing Amalgamated—500 at 7½, 500 at 7½, 1000 at 3½, 500 at 3

richness and the rock formation favorable to values being maintained at

Mrs. Frieda Buchert fell from the Lackawanna viaduct. When found three hours later her clothing was frozen to the ground and she was unonscious from exposure and the regult of her injuries. To-night, while lying helpless in bed she saw her 13 months old baby pick up a bottle of tincture of opium and drink the poison. A three-year-old child, the only other person in the house, was sent to a neighbor's to call for help. The baby will die.

First Giraffe Born in Captivity. BRIDGEPORT, Conn., Jan. 14.-A male giraffe, said to be the first ever born in captivity, was born at Bar-num's circus winter quarters here today.

Preyed on Women. NEW YORK, Jan. 14 .- The Hoboken police asserted to-day that "Baron" Emil Karl Von Mueller, just arrested in Los Angeles on a bigamy charge, has victimized no less than fifty we men between here and California during the last ten years.

#### Everyone Thought She Was Going Into Consumption.

Gained Ten Pounds in Two Weeks by the Use of Burdock Blood Bitters.

Mrs. Fred. Biggs, Kingston, Ont., writes:—"I was completely run down, my blood was out of order, and I used to get so weak I would be compelled to stay in bed for weeks at a time. I could not eat, was pale and thin; every one thought I was going into consumption.
I tried everything and different doctors
until a friend advised me to use Burdock
Blood Bitters. I did not have one bottle used when my appetite began to improve. I used six bottles. I gained ten pounds in two weeks. When I began to take it I only weighed ninety-three pounds. It just seemed to pull me from the grave as I never expected to be strong again. I will tell every sufferer of your wonderful New York Curb.
