YEAR'S LIGHTEST RUN

With less than 200 fresh cattle on the Union Stock Yards exchange yesterday, added to the left overs which have been accumulating during the week, there was enough and to spare. In fact, except for the interchange of ideas and business views, the market might about as well have been closed this week.

Receipts continue very light, but the demand for practically all classes of meat is said to be lighter and the foreign situation is anything but reassuring so meat is said to be lighter and the foreign situation is anything but reassuring so far as the export business is concerned. Some of the commission houses, too, attribute the prevailing epidemic as a depressing factor in the situation, which it undoubtedly is. That there will be any immediate relief does not seem likely, but the local butcher trade will fin all probability jack up shortly. That some of the drovers have in view of the weakness of the market generally taken substantial losses this week, goes without saying, but the cattle were bought too high in the country and this is one of the fortunes of war.

In the small stuff yesterday the recepts were abnormally light, nothing worth talking about, and prices held unchanged to stronger.

The hog market is holding steady on the 17c basis to the farmer, 17½c f.o.b., and 18½c fed and watered, with sales of odd lots to small outside buyers at slightly higher figures.
