

**Are Anti-Bilious and a Specific for the Cure of Liver and Kidney Complaints, Dyspepsia, Costiveness, Headache, Piles and will purify the blood, regulate the Secretions, Remove all Bilious Matter, and prevent Ague.**

**"T**HROW Physic to the dogs; I'll none of it" are words which Shakespeare put into the mouth of Macbeth, but the Immortal William must have had in his mind the vile decoction brewed by the witches on Forres' blasted heath, when he penned the words referred to. Had **Parmelee's Pills** been then in use he would have had more respect for physic. Nay, it may with safety be averred that there must have been times when **Parmelee's Pills** would have been a God-send to the great play-wright, for it is not to be supposed that his liver and kidneys were always in good order any more than the same organs in the present day.

**Parmelee's New Vegetable Pills** are composed of a careful selection from amongst the plants belonging to the Vegetable Kingdom in this country with one important exception, that of a newly discovered plant found only in Spain and whose medicinal properties are amongst the most remarkable at present known, inasmuch as each component part performs its specific action upon the different diseased organs of the body. **Parmelee's Pills** contain Mandrake and Dandelion, therefore as already indicated, they cure liver and kidney complaint. They also prove to be a good tonic, have a healthy stimulating effect, create an increase in the flow of gastric juice, give tone to, and strengthen the digestive organs, and are a sure cure for that forerunner of melancholy—Dyspepsia. Fevers, ague, and all Bilious derangement must speedily disappear when acted upon by **Parmelee's Pills**, which purify the blood, regulate the secretions, carry off all morbid accumulations from the system and create an acti-

vity among the dormant energies of the system which cannot fail to throw off disease.
