This season both King and Queen squares have been despoiled of blos-soms. In several instances very small children have plucked flowers, and at times the caretakers have difficult tasks "shooing" away "les enfants terrible."

women were taken prisonors while the woman with the baby in her arms was thrown from the top of the boulder and killed.

"Later six of the survivors returned to the spring and the scene of the battle. There they dug near the rock and buried their dead who had been stripped of everything they possessed. As to the burial mound, it is plainly visible."

BURLINGTON, Vt., July 6—Vaughn Burnham, 50, farmer, of East Calais, was found yesterday brutally murdered at his home a mile and a half from the village, it was learned here. A man named Guernsey discovered Burnham's body lying in the doorway between the kitchen and bedroom. Burnham had evidently been beaten to death. Eight ribs, his right jaw and right shoulder were broken and there were marks of other heavy blows.

The kitchen furniture was wrecked, the bed clothing was torn to pieces and blood soaked. Bloody finger prints were in evidence.

Burnham was living alone, his wife having left him six weeks ago.

Price and Whitley—Big interests have been accumulating oils and they continue to buy them on small recessions. Josephthal—Irregularity indicated here with stocks thereafter continuing to move according to developments.

Hornblower and W.—Increasing evidence is accumulating of an important shift in speculation to the oil stocks. We believe this will occur without any particular change in the character of trading in railroad issues and that the market has now reached the point where, if public interest is to be stimulated into any substantial participation in trading, it is more likely to be accomplished through group movement rather than in a handful of high priced stocks.

Pyncheon—We continue bullish on the recent leaders, the sound rails and oils and believe the market will be seen at higher levels this week.

Clark Childs—Nothing has developed to alter the generally favorable view of affairs marketwise that we have reflected in these messages of late.

LOS ANGELES, July 6.—A mass of evidence awaited the county grand jury as it met today to resume its investigation of the Aimee Semple McPherson case. New developments which probably will be brought to the attention of the jurors, include a letter to Mrs. Minnie Kennedy, mother of the evangelist, presumably from the same persons who wrote her a previously received ransom demand. The latest letter, like the one demanding ransom, was signed "avengers."

Testimony will be introduced on the detailed report of the Douglas, Ariz, police department investigation into Mrs. McPherson's appearance there and her story of having been held prisoner in a desert shack. Herman Cline, chief of detectives, said the report contained "startling information."

Douglas officials planned a new search for the shack in which Mrs. McPherson said she was confined. They declined to confirm or deny a report the evangelist would make a second trip to Douglas to aid them.
