How Frenchman Came to Lose Contest

(FROM T. S. ANDREWS)

Milwaukee, Wis., April 18.—Boxers, as a rule, have many excuses for losing a contest, but a new one has been sprung by a French fighter, Fred Delaney, a prominent lightweight of England, recently fought a French boy named Volair in London. It was Volair's first appearance in England and he showed the characteristic gameness of his race by standing up under severe punishment when he could have taken the count just as well. In the fifth round, however, the Frenchman caught Delaney two terrific wallops on the jaw, dropping him for the count of nine. The fortunes of war turned again in the sixth round and Delaney sent the Frenchman to the floor, again rising sought for safety by clinching.

It was this part of the game that the Frenchman did not understand and the fact that he was ignorant of the English language was the cause of his undoing. In the seventh round, after being warned several times for holding and hugging, he was disqualified. The decision was not very popular as the Frenchman had been putting up a really good contest and the fans wanted to see the finish. Under the rules, however, it was only right to disqualify him for a violation. After the contest it developed that the boy misunderstood the referee's warning when he called to him to "break," having an idea from what he had picked up previously that the referee was simply telling them to separate and not understanding that he was about to disqualify him. It would be a good idea for referees, both in England and France, to learn the native terms used in a boxing contest in warring fighters. If that English referee had taken the trouble to get the French expression for "break" he could have saved the little French fighter quite a lot of trouble and possibly defeat.

THIRD BASING

I'd like to be a third base man; his job is such a cinch. He stands no chance to get the run or fall down in a pinch. He plays two feet inside the base, emits a warning shout: "This fellow hits a change of pace, so keep 'em high and out." And when the ball is hit at him he lifts his left leg high, and makes a stab much like Z, and lets the ball go by. Then at the pitcher he does run as frothing at the gills and says, "What did I tell you son? Why that's the kind he hits." And if perchance, by accident, the ball should hit his hands, he's so surprised by the event he heaves it to the stands. No errors can be ever cop, no matter what the case. The scorers write: "Too hard to stop," or "Singled through third base." And when they start hitting slows so hard he cannot duck, he stabs them to protect his nose; that's science and not luck. No wonder that the shortstops all do long third base to play, and hardly ever see the ball and draw ten more years' pay.

PLACING THE IMMIGRANT

(Canadian Courier)

On every provincial government rests a duty to see that the new immigrants are well and happily placed. Between 1901 and 1911, Canada lost 700,000 of her immigrants, largely because the provinces neglected their duty. Ontario now proposes to have fifty or sixty agents scattered throughout the counties to see that

these new citizens are looked after. Every province should follow suit. The duty of the dominion government is to bring in new citizens and when the immigrants arrive at their provincial destination. The duty of the province then begins. Every new arrival should be taken care of until he is properly placed and in a position to take care of himself. The provinces cry out for more people, and then fail to take care of those they get. This is not common sense. The provincial governments must wake up and introduce better methods of placing the new citizens furnished them by the dominion immigration department.

The Fragrant Qualities of Master Mason

READY RUBBED SMOKING TOBACCO

Are all in the leaf used in the making of it. We have for years hunted the subtle and elusive elements of goodness in tobacco; we know what they spring from; we know how to retain them in the process of making smoking tobacco. The raw leaf used is the whole thing; the goodness is in the tough, waxy finish and silky fiber of the leaf we use in making

MASTER MASON

READY RUBBED

In the process, we merely deprive it of all possibilities of "sting" or "bite". The result is a really fine smoking tobacco, a cool, mellow, free and even burner to the last shred, with a rich and pleasing aroma. These qualities cover all there is in smoking enjoyment.

GAME ARRANGED

The Thompson Woods Company's Challenge Accepted

Will Do Battle on Baseball Field With High School Team About the Middle of May

The first real whispering of a local baseball game is in the air and, incidentally, the daring challenge of the Thompson-Woods Stock Co. baseball team has been snapped up by a team which is called the "Never Once" High School team. Captain McBeath of the Never Ones and Captain Weyler of the Thompsons, got together yesterday afternoon and agreed to play a grand benefit exhibition game on the Marathon grounds on Friday, May 15, with the kind permission of the weather man—the proceeds to go to the local Protestant and Catholic orphanages.

The possible batting order of the teams will be as follows: Thompson-Woods—McCarthy, 1b and 1f; Hodges, ss; Fager, 3b; McClure, cf; Weyler, p; and r.f.; Davis, cf; McCafferty, 2b; Woods, r.f.; Flemming, p. and 1b. High School—Kelly, c. f.; Donnelly, 1b; McAnulty, 2b.; Robinson, p.; Drummond, 1 f.; Smith, 3 b.; Mooney, ss.; McBeath, c.; Bennett, r. f.

The Times reporter was inquisitive enough yesterday to ask Captain McBeath what the "Never Once" business stood for and he was told that it meant "never once beaten," probably because they had never once played together before.

CARMANIA IS LARGEST

The Cunard liner Carmania, due at Portland yesterday, on her way to Boston, is the largest ship ever to enter a Canadian port and is also the largest triple screw turbine steamer in the world. She has a tonnage of 20,000 tons, a length of 73 feet, six inches beam and has a carrying capacity of about 3,000 passengers.

Troubled With Weak Back and Kidneys For 10 Years.

Many people fail to understand the significance of a lame, weak, sore or aching back.

When the backaches or becomes weak it is a warning that the kidneys are affected in some way.

Take notice to the warning and cure the backache on the first sign, for if you don't do this, serious complications are sure to arise and perhaps develop into Dropsy, Diabetes or Bright's Disease, the three most deadly forms of kidney trouble.

Doan's Kidney Pills will strengthen the weak back, and prevent any form of kidney trouble entering the system.

Mr. Ed. E. Beyer, Niekomi, Sask., writes: "I have been troubled with weak back and kidneys. I had terrible dizzy headaches, and could not sleep at night. In this way I suffered for ten years, until I read about Doan's Kidney Pills. I purchased two boxes, and as they helped me, I sent for two more; they put me on my feet, and I have been able to work ever since."

Doan's Kidney Pills are 50 cents a box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

MORNING NEWS OVER THE WIRE

The authorities at Woodstock are intending to investigate the death of a young colored girl who died there last week after giving birth to a child. Circumstances, it is said, warrant an inquiry.

Mayor Moses Mitchell was yesterday awarded the contract of building the new schoolhouse in Smythe street, Fredricton. The contract price was upwards of \$32,000. R. A. Corbett of St. John was second lowest tenderer.

Rev. Wm. Penna, pastor of the Methodist church at Woodstock has tendered his resignation because of failing health.

The union railway station to be built at Toronto by the C. P. R. and Grand Trunk will cost between \$12,000,000 and \$15,000,000. Plans have been decided upon.

Peter Weatherby, aged 40 years, a painter, was killed yesterday in Charlottetown, P. E. I., by being caught in the revolving shaft.

THE INVISIBLE ELEMENT IN CITY PLANNING

City planning implies three things: 1. An organized community spirit. 2. The cultivation of civic foresight. 3. A sufficient degree of municipal self-control to make planning worthwhile.

It involves something more than civic centres and civic beautification—seven more than the reservation and development of spaces for public use. It involves public control of the development of essential street, utilities, especially transportation. City planning is important unless it goes into the realm of the invisible, and takes cognizance of franchises, contracts and vested rights. If these are not brought under control, city planning is largely futile.

"AT ALL GOOD HAT SHOPS"

Free Advice About Your Manly Strength

TO MY READER:

Whether or not you lack an abundant vigor, here is a free offer which will surely interest you, and through which you may easily profit from now on to the end of a ripe, healthy, advanced age. I have compiled a little treatise for self help (book form) which I am pleased to send absolutely free by mail in a perfectly plain, sealed envelope to any man anywhere who writes for it. Over a million copies have already been thus distributed to those who wrote for them from all over the world. There is no obligation whatsoever involved in this offer, nothing which you are required to buy, nothing which you are required to pay for in any way, either now or in the future. It is just simply an out-and-out free proposal. In this little book of 72 pages, 8,000 words and 80 half-tone photo reproductions, I have endeavored to give a straightforward talk to men, young and elderly, single and married, a concise compendium for self-reference, a perfectly plain discourse upon those important, personal matters relating to vital strength, the preservation of its vitality, its possible self-restoration, its legitimate uses and its wanton abuses. Every man should be in possession of this book. One paid reproduction, a drugless mechanical vitalizer, which I make and distribute, but whether or not you wish to use one of these vitalizers is for you yourself to determine.

IT'S THE MAN, NOT THE CLOTHES THAT COUNT.

self. Of course I do not include the man of extreme old age, or the one who is incurably diseased. Lost vitality is not, according to my theory, an organic disease. It is more a sick condition of the mind and the nerves and a lowered state of the whole body, all combined. My free book tells you just what you may do.

The vitalizer referred to above, which I make and distribute, is a little appliance that men who desire to restore lost vitality are using everywhere today. The book in one part fully describes it. You wear this vitalizer comfortably upon your body all night. It weighs but a few ounces, and pours a great, gentle stream of FORCE or VITALITY into your blood, your nerves, your muscles and organs, while you sleep. Men say it drives away the nervous weakness or pain in small of back often by one application; that vigor is restored in 60 to 90 days. With special attachments my vitalizer is also used for rheumatism, kidney, liver, stomach, bladder disorders, etc. It is a wonderful little appliance and generates and sends out a marvellous force. Possibly you might want to use one of these vitalizers in your own case. If so, you can, after reading the free book, let me know and I will make a special proposition whereby you may have one. If you live in or near this city I should be most pleased to have you call and get a free demonstration of the manhood and vigor if he but make up his mind that he WILL conquer him-

SANDEN, Author.

Reader, the whole world is today alive to the importance of a better general understanding of sex hygiene. The much discussed science of eugenics is teaching the great mass of people that strong, healthy, rugged parents beget equally sturdy children.

Manhood, no matter where or in what condition of life we find it, is the single power that most fascinates both men and women. The one who radiates this manly influence, the result of a vigorous, sturdy nerve force, is the one who forges to the front, while weaker people stand aside.

It is my opinion that any man may hope for a complete restoration of his manhood and vigor if he but make up his mind that he WILL conquer him-

Let Me Send You This Book FREE

If you live too far to call, or if you cannot call, please fill in the coupon below and send it to me. You will receive free, sealed, by return mail, my 72-page illustrated book, containing 8,000 words, a complete compendium of useful information for men young or elderly, single or married, who want the truth about the subject of vital strength, its preservation, its possible self-restoration and its legitimate uses.
