

**DISSOLUTION OF GLASGOW VOLUNTEERS.**  
If we mistake not, Glasgow is the first place in Scotland where the interest in the Volunteer movement has so fallen off as to render it necessary to dissolve a whole battalion. Such, however, we regret, is the case with the 5th Consolidated Regiment of Lanarkshire Rifle Volunteers. At a meeting of the officers and men, it was, we believe, agreed, on account of the falling off in numbers, and it being found impossible to bring together a sufficient number of men to enable the regiment to pass the usual annual inspection, to dissolve the battalion. Some time ago the battalion consisted of ten companies.—Scotsman.

**THE LAST RESORT.**—Two young men were overtaken by a squall in Delaware Bay while sailing in a yacht. At Nazareth Methodist church, on Twelfth Street, Philadelphia, they had occasionally been present at public worship. From the way things looked, the capsizing of their boat was very near inevitable.

"Bill," said one to the other, "this is a serious business; can you pray?"  
"No, I can't; I've heard Joe Quinn do it, and I've listened to Bill Post, but I can't do it myself."

"Well, you can sing a hymn, can't you?"  
For Heaven's sake do something!"

"No, I can't sing here. How can I sing when this boat at any moment may drown us both?"

"Well, we must do something religious. If you can't pray and can't sing, let's take up a collection."

To this Bill consented. In his companion's hat he deposited thirteen pennies, a cork-crow and a broken blade knife. As he did this the wind lulled, and the boat made a successful landing.

**Why the Valve Jar is Superior to all Others for Preserving Fruit.**

1. Because it is the only one in which the contents can be securely fastened, and cooked while thus fastened, without risk of an explosion.

2. It is the only one that is Automatically Sealed, therefore, the only Seal-Beating Jar in the market.

3. It is so simple that no skill is required to use it successfully.

4. It is securely fastened when placed in the kettle, and being immersed, the fragrance of the contents is confined in the Jar, a more perfect vacuum produced and the handling of the hot jars entirely avoided.

5. It is well known that fruit Jars which are closed with rigid fastenings burst by fermentation, and the effect upon the contents is well understood by many housekeepers.

The Cover of the Valve Jar being a perfect safety valve makes an explosion impossible, and entirely obviates every difficulty that exists in other fastenings.
