The troops intended for the latter purpose are much larger in number, but the necessity for keeping such troops will, he wever, cease with the evacuation of the Liao Tung peninsula, and so much of these troops will then be withdrawn from Corea. Serious State of Affairs Reported from Bulgaria - Discontent With Turkey.

Constantinople, Nov. 1 .- Advices from Marsoven, Asia Minor, sny the trouble which was anticipated by United States Ambassador Terrell in a dispatch to Washington in August last has culminated in an attempt to burn the American college there. It is added that the would-be incendiaries have not been dis covered.

The agitation against Americans at Marsovan began about a year ago, when a number of pupils of the American college were expelled because their fathers were accused of being implicated in the Armenian movement. This caused suspicion to fall upon the professors of the college, five in number, two of whom were Americans.
