CATARRHAL DEAFNESS.

There never will be a treatment for Deafness that will cure all cases. Such a thing is ridiculous and impossible. There never will be a treatment that will cure every case of any disease. The treatment that cures the majority of cases of any diseased condition is a great boon and a godsend to men. Nearly every case of deafness results from catarrh. Many, many are the patients still cted with deafness that I have cured after they had tried ear specialists in vain, simply by curing the catarrh.

Until within a few years most of the diseases of the ear were pronounced incurable, and even to-day this belief is widespread. Fortunately there is an error, for nearly all the diseases of the ear are curable.

Do not listen to the advice of those who tell you that your deafness has lasted so long that nothing else can be done for it. Very many who have been deaf for years can be entirely cured, and still many others who are rendered by their deafness totally unfit to transact business, or have intercourse with their friends, can receive enough benefit to make them useful citizens, and a comfort and a blessing to their homes and the community at large.

Therefore, TAKE NO RISK! Do not let a trouble of the ear of any kind run on from week to week mouth to month, or perhaps year to year, until the parts are so completely destroyed that there is little hope of regaining the valuable and important sense.

Symptoms of Disease of the Ears.

Distancess and ear troubles result from catarrh passing along the Pristachian tube that leads from the throat to the ear.

A suspected murder case at Meductic, York County, N. B., is causing much excitement. Last June, George Marsten, who kept a hotel at that place, died under circumstances which led some persons to suspect that he had been poisoned. At the time no legal proceedings were taken in the matter, but afterwards there was considered to be evidence to justify an investigation. The body was accordingly exhumed and the internal organs subjected to examination by a chemist. The result was the finding of strychnine in sufficient quantities to cause death. Mrs. Marsten, the widow of the decessed, has been arraigned on the charge of poisoning her husband. The preliminary examination was set down for Monday of the present week.
