WORK ON PLANT.

Chicago, Mar. 12.—Work was begun today on the Chicago Federal league club's plant at Addison avenue and North Clark street. A hand concert and brief speeches by President Gilmore of the league and President Veegham of the club were features of the ceremony attending the turning of the first spadeful of earth. Mayor Harrison was represented by Building Commissioner Ericson. A large crowd was present. The contractor agreed to have the plant finished by April 25.

Charles W. Murphy, retiring president of the Chicago Nationals, returned from Cincinnati today, where he arranged final details of the transfer of his stock in the club to Charles P. Taft.

JOHNSON LEAVES SWEDEN.

Stockholm, March 12.—"Jack" Johnson, the American negro pugilist, who was to have engaged in wrestling matches with Jesse Pedersen and others has been forced to leave Sweden owing to the hostile demonstrations against him.

INTERNATIONAL TEAM.

Nice, France, March 12.—Craig Biddle, of Philadelphia, with Mme. M. Gondola as a partner today defeated Arthur J. Balfour, former British premier and Mrs. Lambert in the first round of the International Lawn Tennis Tournament. Mr. Balfour, despite his 66 years was remarkably alert, and played with great judgment.

SOCCER FOOTBALL.

Under the new American Intercollegiate rules two substitutes will be permitted for each team, this being a departure from the British rules, which permit no substitutes. On the Pacific coast there are many good soccer clubs, and a great soccer tournament is scheduled for the San Francisco exposition, as a preliminary try-out to secure the best American team for the Olympic games.

Some after soccer attained some popularity in Canada it spread to the United States.

Soccer football coming to front in the United States.

ed States by way of Detroit, which was the first city on the southern side of the international boundary to have a soccer team. Buffalo took up the game a little later, and soccer teams soon made their appearance in various cities of New York, New England, New Jersey and Pennsylvania. About a quarter of a century ago the Pennsylvanian league, the first international soccer circuit, was organized, and Detroit annexed the championship in 1892. In the meantime soccer had made its way southward from British Columbia to the Pacific States, and about fifteen years ago it reached the Middle West, with clubs and leagues in Chicago and St. Louis. In 1906 American interest in the game was further enhanced by the visit of two crack British aggregations, the Pilgrims and Corinthians, who toured Canada and the States. The visitors found the American soccer clubs comparatively easy, but when the Pilgrims came over again a couple of years ago they were beaten by the Fall River, Mass., team, and had to play their hardest to win in other cities. Soccer is now played all over the United States, and many advocates of the "leading" believe that it will eventually supplant the more brutal and less speedy American intercollegiate style of football.

CONNERY EXPECTS TO BUY.

Chicago, Mar. 12.—The difference between the bid made for the controlling interest in the Chicago National league club by John T. Connery and the bid made by Charles P. Taft was so slight that Connery expects to acquire the stock in a few days.

Another syndicate of Chicago men today tried to purchase the Chicago club. A telegram sent in the name of Modie J. Spiegel, a Chicago business man, to Mr. Taft said that a syndicate had been formed and that a check for \$25,000 was waiting to clinch negotiations.

EXMOUTH Y.M.A. BASKETBALL TEAM WINS

In a fast and exciting game of basketball played last evening between St. Andrew's church team and the Exmouth Y. M. A. on the former's floor, the Exmouth boys were victorious to the tune of twenty-eight to twenty-five. C. Worden and J. White controlled the game in a satisfactory manner.

The teams lined up as follows:
St. Andrews: forwards, White Dykeman; centre, Christie; defence, Burgess, MacIntosh.
Exmouth Y. M. A.: forwards, Millar, Bambury; centre, O'Regan; defence, Bond, Brown.

FARMERS BRING MUCH PRODUCE

Ice Holding Firm Despite the Mild Weather—Eggs, Meat and Butter Plentiful.

Despite the warm weather of the last few days there is, as yet, no sign of the ice on the river breaking up, and it appears now as though the farmers living along the banks of the river, on the opposite shore, are going to have a lengthy season of ice. Yesterday saw more farmers from across the river visit the city than was the case on any one day this year, and judging from the supplies that those who came to the city, brought with them the residents along the river front are taking no chances on the generosity of the weather man, but propose to make hay while the sun shines. Through poor travelling conditions in the early winter they were not able to bring their produce to the city any more than they were able to purchase in the city necessary provisions for the satisfaction of the country appetite. Consequently they have stored up healthy supplies, and yesterday a start was made on selling the winter cache of produce to the merchant in the city. Butter, eggs, vegetables, fowl and meat, were all brought in in large quantities.

Strange to say, notwithstanding the spell of the past few days, the ice on the river has not shown any sign of breaking up, but in reality is in better condition for travelling by sled than on any day during the winter. This was the condition reported by those who crossed yesterday. It appears that the last cold spell following a heavy rain gave the ice a solid thickness with a good smooth surface.

Will be some weeks before steamship navigation is begun on the St. John River, and consequently a time intervening when the farmers will be handicapped in delivering produce to or securing food from the city. Bearing in mind that fact those across the river are taking the necessary precautions while the going is good, and it is considered that much produce will be brought down the remaining days of this week and next.

EXCELLENT CONCERT AT COURTENAY BAY

Members of Norton Griffiths Staff Heard in Interesting Programme, in Presbyterian Mission Hall.

An interesting concert was given in the Presbyterian Mission Hall, East St. John, last evening, by the staff of the Norton Griffiths Co., Ltd. James Gilchrist was in the chair. The first item on the programme was the Flow Song from Ganod, sung by Mrs. Jas. Gilchrist. Then came a sailor's horn, played by W. F. Studholm, followed by the song "Ships of the Ming," sung by J. W. Gibson. Next there was a duet "Life's Dream is O'er," sung by Mrs. James Gilchrist and G. F. Palmer. An exhibition of second singing was given by W. H. Brown, and then G. F. Palmer sang "The Admiral's Broom." Mrs. James Gilchrist sang Annie Laurie, and Mrs. M. Armstrong gave a sketch entitled "Thought Reading." This was followed by a duet, "Oh Wert Thou in the Cold Blast," (Kendelschmahn), sung by Mrs. James Gilchrist and J. W. Gibson.

In addition to the musical programme which was well received two reels of picture films were shown and addresses of appreciation were delivered by James Belyea and Rev. Gordon Dickie. Mrs. Gordon Dickie was the accompanist.

Just Fales.

Among the articles not estimated in the newspaper reports of the loss of the recent Union Hotel fire, was a set of teeth, which one of the willing fighters lost, while assisting in subduing the flames. The molars accidentally slipped out and were lost in the mess, but it was not necessary for the appraisers to figure on this loss for early the following day the fire ladie slipped into the hotel and recovered the dentals. When this story first reached this office it was thought that it was false, so it was. But when, shimmered down every story has its cloudy disturber when the vehicle "false" matter of the story is now cast back into the teeth of him who first gave out the false affair.

Brandy to Cure Catarrh

Recent experiments have proved conclusively that catarrh is a constitutional disease, and that salves, sprays, inhalers, etc., merely temporarily effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would dispel all traces of the catarrhal poison from the system. The result is given in the following formula, which has been found to produce most surprising results in an incredibly short time.

From your druggist obtain one of Farinell. Take this home and add to it one-quarter pint of hot water and two tablespoonfuls of brandy and four oz. of moist or granulated sugar. Stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most miserable headache, stiffness, sneezing, sore throat, running of the nose, catarrhal discharges, and other loathsome symptoms that always accompany this distressing disease.

Less of small, defective bearing, and mucus dropping in the back of the throat are other symptoms that show the presence of catarrh, and which are quickly overcome by the use of this simple treatment.

Every person who has catarrh in any form should give this prescription a trial. There is nothing better. Important.—In ordering Farinell always specify that you want Double the regular size. If not, send the to the International Dispensary, 74 St. Andrew street, Montreal, P. Q., who makes a specialty of it.
